26.8.11

P.K.S

Note. Out of the allotment of Rs 60,000 for the work, the S.E. surrenders Rs 15,000, as the estimate which is under preparation, will amount to ^{only} about Rs 46,000. It is proposed to accept the surrender.

With reference to your query whether it is submitted that there is no objection to accepting the proposed surrender at once.

2. What H.C. means to say in his note is that there is no hurry about this, as we have Rs 53,737 in reserve and as there are demands against the amount, and that when the estimate is sanctioned, the actual surplus allotment may be resumed in the order sanctioning the estimate.

P.K.S.

25/8/99

But surely it is our duty to give the earliest possible intimation to the Finl. Dept as to grants in excess of requirements, in order that the money may be utilized for other purposes.

All
25/8

W

Yes, but the funds in question are excluded local Port Funds and as such can only be spent on Port improvements. The charges for the Civil (i.e. Port) Dept more or less remain the same and have been provided for in the Port and Marine Fund budget.

2. Inasmuch as the Marine Dept is also under the control of the P.W. Secretary (i.e. W), the Financial Dept has no better information on the subject of requirements of the Port Dept than we have. In the present instance it is not therefore necessary to give early intimation to the F.D.

P.K.S. 25/8/99

NOTES.

Reference to P. W. D. Code.

Chapter XV, section vi, para. 199.

1. This form should be used by the Executive Engineer or the local Government in any of the following cases:-

(a).—When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(b).—When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.

(c).—When it is proposed to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus:-

PROJECT.

(1).—HEAD WORKS—

(B). Land.

(K). Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

The estimate now under preparation will amount to about Rs 4,6000.

C No 1808

W thru D.N.

The S.R. IV circle proposes a surrender of Rs 15,000 from the grant of Rs 60,000 for the reclamation of foreshore and erection of a pier at Mangalore on the ground that the estimate under preparation will amount to Rs 46,000. The reserve under Reclused Local Port Funds, on this date being Rs 53,737 and there being no demands against it at present, it is respectfully submitted that the receipt of the estimate for the work in question may be awaited, when it ^{will be known} ~~is possible to know~~, ^{precisely} what amount is not required, and that that sum may then be withdrawn.
