Read.....the following letter from Messrs. Oakes and Co. Ltd. Madras,
dated 6th July 1899.

We have the honour to request you to be good enough to inform us whether the Department has a record of the experiments carried out in connection with the boring of Artesian wells in this Presidency and, if so, whether such records are available for our inspection. We think that the recent improvements in boring machinery (in which we are interested) may provide means for carrying out work which hitherto has been attempted without success.
