REVENUE BOARD OFFICE * MADRAS *

Proceedings of the Board of Revenue

(Separate Revenue).

Dated 15th August 1899.

Mis. No. 3696

The Hon'ble Mr. J. Thomson.

Read letter from J.H.Merriman, Esquire, Deputy Commissioner, Northern Division, No.2111, dated 31st May 1899, submitting for sanction 2 estimates, one for converting the old Deputy Collector's office into the Inspector's office and quarters and the other for constructing single out-houses at Ellore, and,

Board's reference thereon, dated 30th June 1899, requesting the Deputy Commissioner, Northern Division, to ascertain from the District Engineer and report whether, with certain improvements proposed, the building will be thoroughly secure.

Read also letter from W.C.F.Leggatt, Esquire, Acting Deputy Commissioner, Northern Division, No.3028, dated 29th July 1899, replying to the above reference.

Resolution.

The Board requests that Government will be pleased to transfer to the Salt, Abkari and Customs Department, for use as quarters and office for the Inspector, Ellore Circle, the portion of the building, lately occupied by the Deputy Collector's office at Ellore, which has not been handed over to the Local Board.

2. It was brought to the notice of the Board in 1896 that, since the opening of the East Coast Railway, the demand for houses at Ellore had increased and that suitable accommodation could not be secured for the Inspector and Assistant Inspector

and the Circle office. After some correspondence, the late Commissioner decided that the Inspector should be provided with quarters and an office and called for estimates; but, as the amounts of the estimates submitted were prohibitive and cheaper buildings could not be constructed at Ellore, he requested the Deputy Commissioner to report whether the Circle head-quarters could not be removed to some other place. The Deputy Commissioner, however, strongly recommended the retention of Ellore as the Circle head-quarters, and suggested that, as the Deputy Collector at Ellore had been provided with a new office, a portion of the old building vacated by him might be utilized as quarters and office for the Inspector, Ellore Circle. The Board accepted his recommendation and directed him to consult the Executive Engineer as to the state of the building. That officer, it is reported, is of opinion that the building will be perfectly secure with certain repairs and improvements which he estimates at Rs.3,965, and has no objection to placing the portion of the building selected at the disposal of this Department. The Board therefore requests that Government will be so good as to issue orders for its formal transfer.
