Indents

Ordered that two —, one for stores and the other for tools and plant, required by the Public Works Department during 1899–1900, be forwarded to the Director-General of Stores for compliance.

O.L.S.
441

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From H. A. MOSS, Esq., General Superintendent, Public Works Stores, Madras, to the Chief Engineer, Public Works Department, dated 11th August 1899, No. 1 C.E.

I have the honour to forward, herewith, the annual indent for stores and tools and plant for 1899–1900.

The reason for the great delay in the submission is that the indent, when nearly completed, was destroyed with other papers in the Storekeeper's office in the fire of 3rd February 1899. Thus the work of several months has had to be gone over again entirely.

This indent is probably the most carefully prepared annual indent that has ever left this office. It has been personally prepared by Mr. Hutton who has been able to spend most of his time on it. Every item has been carefully considered and the indent seems to me to be about as complete as it would be possible to make it. It is hoped, therefore, that the references on it from the Director-General will be very few, if any, and that the saving of time in supply will, to a certain extent, compensate for the delay in submission of the indent. An index has been provided for ready reference.

The total value of the indent is rather in excess of that of the estimate, the chief difference being in the item of tools and plant. It has been found that the requirements under this head are greater than was anticipated.

The value of tools and plant is £2,683 in the estimate and £6,805–15–9 in the indent.

That of stores is £12,427 in the estimate and £12,267–1–10 in the indent.

The details under each head are also different from the estimate, but t ese differences are to be expected, as the estimate is only approximate and the items necessarily liable to alteration.

It is requested that this indent may be sent on as early as possible.

Office-note from the Examiner, Public Works Accounts, dated Madras, 24th August 1899, No 2821 B./B.

[Your office-note No. 3536 C., dated 19th August 1899.]

The value of the accompanying indents Nos. 6 and 7 of 1899–1900, received with your office-note quoted above, amounts in Indian currency to Rs. 2,94,676 at 1*s.* 4*d.* the rupee, the current rate of exchange, inclusive of 3 per cent. charge for insurance and departmental supervision, whereas the amount provided for during the current year for "London supplies" is only Rs. 1,00,000. Please therefore state whether further grants to the extent of Rs. 1,94,676, or Rs. 2,00,000 in round numbers, will be sanctioned later on in the year to meet the cost in full of the English stores indented for, to enable me to grant the usual certificate as to the provision of funds.

From the General Superintendent, Public Works Stores, Madras, to the Chief Engineer, Public Works Department, dated 4th September 1899, No. 3 C.E.

With reference to your memo. No. 3673 C., dated 2nd September 1899, I have the honour to inform you that our reason for indenting for coloured paints is—

(1) That the coloured paint is cheaper than that which is made up. An examination of the items of the indent will show that, generally, it is cheaper than even the white paint which it is proposed to use as a base. This is especially a consideration in the items of red oxide and chocolate paint, of which large quantities are used. I believe in these particular paints the colouring matter also, to a large extent, forms the base, so that it is impracticable to make them up according to the directions of the circular.

(2) We find it a convenience to have small quantities of coloured paint on hand for immediate issue, as indents are often received for coloured paints ready mixed and it is cheaper and more satisfactory to obtain them ready mixed than to make them up.

(3) We have endeavoured to, at the same time, comply with the orders of the circular, as it will be noticed that we have indented for large quantities of white lead and imperial zinc white paint. I therefore request that you will kindly pass these items of the indent as they stand. We believe it will be the most economical way of obtaining these paints.

With reference to the Portland cement, the quantity entered in the indent is 3,000 casks and not 300. This has been purposely entered as a result of our past experience of issues, both of English cement and Madras cement. We have reason to believe that the Madras Cement Company cannot, at present at least, comply with large indents soon enough. I have in one instance had to cancel an indent on them and supply English cement instead owing to their delay. Further, some Executive Engineers prefer English cement and *will have it* if they can get it. We therefore consider it advisable to keep it. There is no loss in getting it, as the Madras Cement Company take good care that their price is just short of that of English cement. We have reason to believe that that which we are indenting for may come to even less than the present price of Madras cement, in which case it will be an advantage in another way, for it will bring down the price of Madras cement. It would not be a good thing financially for our department to let the Madras Cement Company obtain a monopoly of the supply of the cement which I know is their desire. I therefore request that this item also may be allowed to stand.

With reference to the Examiner's inquiry regarding the provision of funds, it seems to me that the Examiner is in error in his statement and that the provision of funds is unnecessary.

The stock account is a *suspense account*, and all expenditure is charged against our reserve of Rs. 2,25,000, and the value of all issues credited to it. Funds are therefore not necessary for purchases under this head.

The only portion of our indent which will be paid for out of the grant for "London supplies" is indent No. 6 which amounts to £6,805–15–9. This in rupees is 1,02,087. Out of the Rs. 1,00,000 grant for the current year about Rs. 20,000 have already been spent leaving a balance of Rs. 80,000 available. The amount of this indent is therefore in excess of the present grant, but this has been provided for. It will be noticed that a large number of articles are marked in the indent "April 1900." They will not be sent before then and consequently will be charged against the grant of the next financial year. The approximate balance of stock in hand is Rs. 2,28,000, but this does not affect the indent. About Rs. 25,000 will have to be written off on account of the late fire and before the articles indented for in the present stock indent begin to arrive a stock will be further reduced by about Rupees 60,000, and the stock in hand then will be about Rs. 1,43,000.

The distribution of the indent by divisions is given in the memorandum attached. I trust that I have given sufficient explanation for not changing the indent and I request that you will be so good as to forward it at your earliest convenience as it has been already unduly delayed (as I have before explained) and some of the articles are badly wanted.

ENCLOSURE.

DETAILS of estimate of English Stores required by divisions for 1899–1900.

Item number.	Divisions.	Amount. £ s d	Amount. £ s d

Office-note from the Examiner, Public Works Accounts, dated Madras, 12th September 1899, No. 2996 B./B.

[Your office-note No. 3741 C., dated 9th September 1899.]

The indents Nos. 6 and 7 of 1899–1900 are herewith returned with the usual certificates as regards funds.

ORDER—No. 2516 W., dated 26th September 1899.

Ordered that the indents be forwarded to the Director-General of Stores for compliance.

2. The indent was due with the Chief Engineer on the 1st of December 1898. The delay in its submission is attributed to the late fire at the Public Works Stores. As the fire happened only about the 1st of February 1899, the explanation furnished does not account for the delay between the 1st of December 1898 and the date of fire. The attention of the General Superintendent is drawn to this.

ORDER. 2516 W dy 26-9-99

Ordered that the indents be forwarded to the Director-General of Stores for compliance.

H.E. No W dy
No. 2517 W dy 26-9-99

To The Director-General of Stores, India Office, London.

Sir,

I am directed to forward for favour of early compliance two indents, in duplicate, one for stores and the other for tools and plant required by the Public Works Department during 1899–1900.

2. The requisite certificate by the Examiner, P.W. Accounts, is enclosed.

2. The indent was due with the Chief Engineer on the 1st of December 1898. The delay in its submission is attributed to the late fire at the P.W. Stores. As the fire happened only about the 1st of February 1899, the explanation furnished does not account for the delay between the 1st of December 1898 and the date of fire. The attention of the General Supdt is drawn to this.

P.W.D

Memo.

Letter from the General Supdt. P.W. stores No. 1 C.E. dated 11.8.99.
Office note from the Examiner P.W. Accounts No 2821 B/B dy 24.8.99

1. The indent for coloured paints ready mixed is opposed to the orders contained in circular No 557c dated 28th January 1898. Only white zinc and white lead paints should be indented for.

2. Seeing that the use of the Madras cement has been sanctioned in circular No 5757c dy 17th December 1898, the General Supdt is requested to report whether it is necessary to indent for 3000 casks of Portland cement and if not, to reduce the quantity entered in the indent.

3. With reference to the Examiner's inquiry regarding the provision of funds to meet the cost of the indents, the General Supdt is requested to submit a statement distributing the total cost by divisions, and also to report the approximate balance of stock in hand in the P.W. stores. The information called for in this para should, in future, be furnished when annual indents are submitted.

4. A very early reply to this reference is requested.

20.9.99 E.W.

Draft submitted direct to Supdt. and being gone through P.K. 30/9/99

To the General Supdt P.W. stores with papers in original to be returned

INDEXED 4/5/99 P.K.

Item (b) includes the demands for all the Divisions

O.L.S. 441

C. G. P.—No. 1 P W—25-4-98—1500.

contends

D.W. ...ate

W

(a) The Indent No 6 is for "Tools and Plant" for the whole Presidency and its cost in Indian currency is Rs 105,150

(b) The Indent No 7 is for "Stock" for the whole Presidency and its cost in Indian currency is Rs 189,626.

There is a provision of Rs 100000 in the current year's budget for "London Supplies" under "Tools and Plant." This grant is intended to cover item (a) alone and small excess of Rs 5,150 will probably be met from the allotments provided for the several Divisions under this head viz Rs 89800. vide page 86 of the Provincial Budget).

Item (b) includes the demands for all the Divisions

O.L.S. 441

has, no doubt, ~~thought~~ should have been pared with due regard to the works in progress and to the reserve limits for "Stock" in the general Divisions. The P.W. Stores Dr alone has a reserve limit of Rs 225000. Funds have been provided for all works in progress in our budget estimates. The debit against "Stock" will be relieved immediately the stores are issued to Works. In these circumstances, it is submitted that no specific grant is necessary to meet the cost on "Stock," and that the entire expenditure is practically met from the grants for works which are all provided with allotments in the budget estimates of the Deptt

of Madras Dr is mentioned for enamelled cargo

The Examiner contends that there is no adequate provision of funds to meet the two indents. He is there mixing up tools and plant with Stock. He raised the same objection last year and then granted the requisite certificate on the assumption that the budget estimate of the year provided for funds to meet the outlay on Stock articles required for the General Divisions other than P.W. Stores. vide Office note correspondence attached to Go No 1131-32 W dy 7 May 1898 (flagged M). As however the indents for the current year do not show the Division for which the articles are required, the information

now called for in the accompanying endorsement should enable the Examiner to grant the requisite certificate on the same grounds as last year. To save any unnecessary delay, it is submitted, that the Supt.g Engineer V Circle may be asked to supply in future the latter information with the annual general indent. If approved the necessary addition will have to be made to the draft endorsement.

AWL 26.8.99

J.J. 27/8/99

(1) The indent for Colonial Sanitary Stores is referred to the Order contained in Circ No 557 C of 28.8.96 for white zinc & white lead shall be indented for

(2) Seeing that the use of Portland Cement has been sanctioned in Circ 575 C. of 17.12.98 the DS is requested to report whether it is necessary to indent for 3000 Casks of P. Cement

yrs. He may also be asked to state the approximate balance of stock in hand to show that the sanctioned limit of 2¼ lakhs will not be exceeded

HLL 29/8

Yrs. see also above

29.8.99

W draft memo submitted.

2. As the stores to be indented for will only be received early next year, the existing stock balance in the stores may by that time be reduced. It will not therefore be perhaps possible to bring the estimated cost of stock articles for the stores + the existing balance within the sanctioned limits of Rs 2.25.000.

P.K.S 30/8/99

This can be explained

LETTER—from

W. B. DEWINTON, Esq.,
Secretary to the Government of Madras,
Public Works Department,

To

THE DIRECTOR-GENERAL OF STORES,
INDIA OFFICE, LONDON.

SIR,

I am directed to forward, for favour of early compliance, two indents, in duplicate—one for stores and the other for tools and plant—required by the Public Works Department during 1899–1900.

2. The requisite certificate by the Examiner, Public Works Accounts, regarding provision of funds has been endorsed on the original indents.

I have the honour to be,
Sir,
Your most obedient servant,

(Signed) W. B. DEWINTON,
Secretary to Government.

OOTACAMUND,
26th September 1899.

Exd. T. K. Narayana Aiyangar.

NOTES.

Reference to P. W. D. Code.

Vol. I., Chapter X, paras. 83 to 86 and Appendix O.

1. All articles required for the public service, which cannot be manufactured in India, are, as an almost invariable rule, to be obtained by indenting on the Secretary of State. The Store Department at the India Office constitutes a special agency, which is maintained for the express purpose of purchasing stores in England on account of the Government of India, and, [illegible] in the special cases mentioned below, stores of European manufacture must not be bought in India, or obtained direct from Europe independently of the India Office.

2. The special cases in which, with the previous sanction of the Government of India or of the Local Government, as the case may be, stores of European manufacture may be obtained in India, are :—

(*a*) When for any special reason it may be more economical to do so ;

(*b*) When stores indented for from England have not arrived, and inconvenience to the public service is anticipated from the delay in the supply ;

(*c*) When the stores are perishable.

3. Indents for public works stores, other than railway stores, so long as they are within the grant assigned for the purpose, should be sent direct by the Secretaries in the Public Works Department of the several Local Governments and Administrations to the India Office ; three copies of printed and two of manuscript indents should be sent, and a copy be submitted to the Government of India.

Note.—Copies of indents chargeable to Provincial and Local Funds are not required to be sent to the Government of India.

4. This form of indent should invariably be adhered to, other modes of application being entirely discarded, and requisitions in the body of letters, which may be overlooked or misunderstood, being specially avoided.

5. The columns (which sufficiently explain their own meaning) must be filled up without alteration, and others are not to be substituted, any remarks that may be considered necessary being confined to the column for that purpose, which should contain every explanation that may guide in the supply and pattern of the articles required.

6. Where an established proportion for general stores has not yet been fixed, it should consist of three years' ordinary expenditure : the quantities in store at the date of requisition being added to the quantities due upon former indents, the difference between the aggregate of these two columns and the established proportion is the proper quantity to be asked for. This procedure if duly attended to, will always keep up an ample supply for general service ; if, however, in exceptional circumstances, it is found desirable to exceed the established proportion, the reason for so doing must be inserted in the column of remarks. The calculation of the established proportion on the basis of three years' ordinary expenditure is not applicable in the case of railways.

7. The columns printed in red ink are to be left blank for completion in England.

8. In the column of remarks, the port to which stores are to be consigned should be stated, and also the names of the last two or three vessels whose consignments have been included in the quantity in store as shown in column 6.

9. Each indent must be accompanied by a certificate of the necessity for the stores indented for, and that they cannot be advantageously procured of local manufacture or from surplus stores of other departments, railways or administrations.

10. In the case of stores for imperial purposes (including all state railways) in a year not yet begun, the sanction of the Government of India must be obtained to the proposed allotment before the Examiner can give his certificate ; but for stores for provincial services (except provincial state railways) the sanction of the Local Government or Administration will suffice for the Examiner.

11. When it is expected that the outlay will be provided partly in one year and partly in another, the following addition should be made to the Examiner's certificate—"and that the balance of the estimated outlay in England, or £ (————) will be provided by the Government of India in the estimates of the year 189 -9 . *Vide* Government of India letter No. dated "

12. In preparing indents attention should be paid to the rules on the subject in appendix O. (P. W. Code, vol. I.)

Indent on England for stores required for the Public Works Department in the Province of

, for the service of the Indian Government.

I hereby certify that the stores enumerated in this indent are absolutely required for the service of the Public Works Department ~~for a period of~~ they cannot be procured of local ~~months, and I further certify that I have, by a personal inspection of works and stores, satisfied myself that~~ manufacture or from Surplus Stores of other Divisions ~~they comprise the least possible quantity necessary for the above period.~~ Railways and Administration

Dated this Seventh *day of* August 1899, at Madras

W L Britton *

E. Engineer & Surveyor †
Madras

NOTE—1. In cases in which a personal inspection of books and stores cannot be made, the portion of the certificate relating thereto should be scored through.

2. The Indent should be paged, and the signature attached to the last line of the Indent.

3. The quantities entered in the indent should invariably be given in English weights and measures.

I certify that funds to meet the outlay which it is estimated will be incurred in England in connection with this indent during the year 1899-1900 (a) will be provided by the Local Govt in the estimate of that year vide office note from the Secy to Govt PW Deptt no 3746 dy 9-9-99.

(sd) H. Rainier

No. *dated the* 12-9 1899 Offg *Examiner of P. W. Accounts,* Madras *Province.*

* Signature.

† Rank.

(a).—Here insert either "have been provided for in the estimates of the Public Works Department to the extent of £ " or
" will be provided by the Government of India in the estimates of that year, *vide* Government of India No. dated

Received by the Director General of Stores in England the day 18

NOTES.

Reference to P. W. D. Code.

Vol. I., Chapter X, paras. 83 to 86 and Appendix O.

1. All stores required for the public service, which cannot be manufactured in India, are, as an almost invariable rule, to be obtained by indenting on the Secretary of State. The Store Department at the India Office constitutes a special agency, which is maintained for the express purpose of purchasing stores in England on account of the Government of India, and, save in the special cases mentioned below, stores of European manufacture must not be bought in India, or obtained direct from Europe independently of the India Office.

2. The special cases in which, with the previous sanction of the Government of India or of the Local Government, as the case may be, stores of European manufacture may be obtained in India, are :—

(*a*) When for any special reason it may be more economical to do so ;

(*b*) When stores indented for from England have not arrived, and inconvenience to the public service is anticipated from the delay in the supply ;

(*c*) When the stores are perishable.

3. Indents for public works stores, other than railway stores, so long as they are within the grant assigned for the purpose, should be sent direct by the Secretaries in the Public Works Department of the several Local Governments and Administrations to the India Office ; three copies of printed and two of manuscript indents should be sent, and a copy be submitted to the Government of India.

Note.—Copies of indents chargeable to Provincial and Local Funds are not required to be sent to the Government of India.

4. This form of indent should invariably be adhered to, other modes of application being entirely discarded, and requisitions in the body of letters, which may be overlooked or misunderstood, being specially avoided.

5. The columns (which sufficiently explain their own meaning) must be filled up without alteration, and others are not to be substituted, any remarks that may be considered necessary being confined to the column for that purpose, which should contain every explanation that may guide in the supply and pattern of the articles required.

6. Where an established proportion for general stores has not yet been fixed, it should consist of three years' ordinary expenditure : the quantities in store at the date of requisition being added to the quantities due upon former indents, the difference between the aggregate of these two columns and the established proportion is the proper quantity to be asked for. This procedure if duly attended to, will always keep up an ample supply for general service ; if, however, in exceptional circumstances, it is found desirable to exceed the established proportion, the reason for so doing must be inserted in the column of remarks. The calculation of the established proportion on the basis of three years' ordinary expenditure is not applicable in the case of railways.

7. The columns printed in red ink are to be left blank for completion in England.

8. In the column of remarks, the port to which stores are to be consigned should be stated, and also the names of the last two or three vessels whose consignments have been included in the quantity in store as shown in column 6.

9. Each indent must be accompanied by a certificate of the necessity for the stores indented for, and that they cannot be advantageously procured of local manufacture or from surplus stores of other departments, railways or administrations.

10. In the case of stores for imperial purposes (including all state railways) in a year not yet begun, the sanction of the Government of India must be obtained to the proposed allotment before the Examiner can give his certificate ; but for stores for provincial services (except provincial state railways) the sanction of the Local Government or Administration will suffice for the Examiner.

11. When it is expected that the outlay will be provided partly in one year and partly in another, the following addition should be made to the Examiner's certificate—"and that the balance of the estimated outlay in England, or £ (———) will be provided by the Government of India in the estimates of the year 189 -9 . *Vide* Government of India letter No. dated "

12. In preparing indents attention should be paid to the rules on the subject in appendix O. (P. W. Code, vol. I.)

(a).—Here insert either "have been provided for in the estimates of the Public Works Department to the extent of £ " or
" will be provided by the Government of India in the estimates of that year, *vide* Government of India No. dated "

Received by the Director General of Stores in England the day 19

reference to H.E's remark re - the delay in the submission of the indent, it is submitted that as the fire at the stores happened about the 1st February 1899, the S.E's explanation does not account for the delay between the 1st of January 1899 (on which date the indent was due) and the date of fire. The attention of the General Supt may be called to this.

with reference to the question of [illegible] mistake paint. I think the arguments of the Supt. are very strong. When the circular issued I considered that in the case of Divns with scattered works it would be very difficult to write and I shudder to think what the result would have been had those of my subordinates been entrusted with the issuing of these paints in that way. As regards the [illegible] works in a ring fence it is all very well. I think a considerable quantity of ready mixed paint is necessary

2. The arguments about English Cement are also sound but 30,000 barrels is a large supply it might be reduced to 20,000

To

THE Chief Engineer

Public Works Department

Madras

SIR,

Enclosure.

2 Indents in triplicate

I have the honor to forward herewith the Annual Indents for Stores and Tools and Plant for 1899–1900

The reason for the great delay in the Submission is that the Indent when nearly completed was destroyed with other papers in the Storekeeper's office in the fire of 3rd February 1899. Thus the work of several months has had to be gone over again entirely.

This indent is probably the most Carefully prepared Annual Indent that has ever left this office. It has been personally prepared by Mr. Hutton who has been able to spend most of his time on it. Every item has been Carefully Considered and the indent seems to me to be about as Complete as it would be possible to make it. It is hoped therefore that the references on it from the Director General will

will be very few if any, and that the saving of time in supply will to a certain extent compensate for the delay in submission of the indent. An index has been provided for ready reference.

The total value of the indent is rather in excess of that of the Estimate, the Chief difference being in the item of Tools and Plant. It has been found that the requirements under this head are greater than was anticipated.

The value of Tools & Plant in the Estimate is £ 2683 in the Estimate and £ 6805 - 15 - 9 in the indent.

That of Stores is £ 12487 - - - in the Estimate and £ 12267 - 1 - 10 in the indent.

The details under each head are also different from the Estimate but these differences are to be expected as the Estimate is only approximate, and the items necessarily liable to alteration.

It is requested that this indent may be sent on as early as possible.

I have the honor to be,

Sir,

Your most obedient Servant,

H. Jones

To

E.W.

Your Office Note No.3536 C dated I9th.August I899.

The value of the accompanying indents Nos.6 and 7 of I899-I900, received with your Office Note quoted above, amounts in indian currency to Rs. 2,94,676 at Ish. 4d., the rupee, the current rate of exchange, inclusive of 3 per cent charge for Insurance and Departmental Supervision, whereas the amount provided for during the current year for "London.Supplies" is only Rs. I,00,000. Please therefore state - whether further grants to the extent of Rs.I,94,676 or Rs.2,00,000 in round numbers will be sanctioned later on in the year to meet the cost in full of the English Stores indented for, to enable me to grant the usual certificate as to the provision of funds.

Offg.C.

24-8-99

PRESIDENCY PUBLIC WORKS STORES,

Madras, 4th September 1899.

No. 3673C.

From

THE GENERAL SUPERINTENDENT,

PUBLIC WORKS STORES,

Madras,

To

THE Chief Engineer

Public Works Department

Madras

SIR,

Enclosure. 3

Indents in triplicate Lost

With reference to your Memo No. 3673C dated 2.9.99 I have the honor to inform you that our reason for indenting for Coloured paints is (1) that the Coloured paint is cheaper than that which is made up, an examination of the items of the indents will show that generally it is cheaper than even the White Paint which it is proposed to use as a base. This is especially a consideration in the items of red oxide and Chocolate paint of which large quantities are used. I believe in these particular paints the Colouring matter also to a large extent forms the base. So that it is impracticable to make them up according to the directions of the Circular.

2 (2) We find it a convenience to have small quantities of Coloured paint on hand for immediate issues as indents are

received for Coloured paints ready
yed and it is Cheaper and more Satisfactory
obtain them ready mixed than to make
them up.

(3.) We have endeavored to at the Same time
Comply with the orders of the Circular as
it will be noticed that we have indented for
large quantities white lead and imperial
Linie white paint. I therefore request that
you will kindly pass these items of the
indent as they stand. We believe it will
be the most economical way of obtaining
these paints

4 With reference to the Portland Cement
the quantity entered in the indent is 3000 Casks
and not 300. This has been purposely entered
as a result of our past Experience of
losses both of English Cement & Madras
Cement. We have reason to believe that
the Madras Cement Company cannot,
at present at least, Comply with large
indents soon enough. I have in one instance
had to Cancel an indent on them and
Supply English Cement instead owing
to their delay. Further Some Executive
Engineers prefer English Cement and
will have it if they can get it. We
therefore Consider it advisable to keep it.
There

48

is no loss in getting it as the Madras
Cement Company take good care that
their price is just short of that of
English Cement. We have reason to
believe that that which we are indenting
for may come to even less than the present
price of Madras Cement in which case
it will be an advantage in another
way for it will bring down the price of
Madras Cement. It would not be a
good thing financially for our Department
to let the Madras Cement
Company obtain a monopoly of the
Supply of the Cement which I know
is their desire. I therefore request that
this item also may be allowed to
stand.

5 With reference to the Examiners'
inquiry regarding the provision of funds
it seems to me that the Examiner is in
error in his statement and that the
provision of funds is unnecessary.
The Stock account is a Suspense
account, and all Expenditure is
Charged against our reserve

of

of Rs 225000. and the Value of all issues Credited to it. Funds are therefore not necessary for purchases under this head.

The only portion of our indent which will be paid for out of the Grant for "London Supplies" is indent No. 6 which amounts to £ 1805-15-9. This in rupees is 1,02,087: Out of the R 100000 Grant for the Current Year about Rs 20000 have already been spent leaving a balance of R 80,000 available. The amount of this indent is therefore in Excess of the present Grant but this has been provided for. It will be noticed that a large number of articles are marked in the indent "April 1900" they will not be sent before then and Consequently will be charged against the Grant of the next financial year. The approximate balance of Stock in hand is Rs 228000 but this does not affect the indent. About Rs 25000 will have to be written off

therefor

6

+ 3 o/o for additional charges are omitted under para 205 (a) Ch III and II of the Code - The Hd Cert in — 10208 3062-61 10514-9-61

on account of the lake for before the articles indented for in the present Stock indent begin to arrive a Stock will be further reduced by about Rs and the Stock in hand then will be about Rs 143000.

The distribution of the indent by Divisions is given in the Memo attached.

I trust that I have given sufficient Explanation for not Changing the indent and I request that you will be so good as to forward it at your earliest Convenience as it has been already unduly delayed (as I have before Explained) and some of the articles are badly wanted.
