Civil Works.

READ—the following paper:—

From W. C. DEMORGAN, Esq., M.I.C.E., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Camp Narsapur, 21st September 1899, No. 1977 G.E.

I have the honour to submit a revised estimate, amounting to Rs. 66,600, for constructing an iron girder bridge over the salt creek at Coringa and to request that you will be good enough to obtain the sanction of Government to the same.

2. The excess of Rs. 6,100 over the original estimate of Rs. 60,500 sanctioned in G.O., No. 3395 W., dated 3rd December 1897, is due to increase of quantities, rates, &c., in various description of works for which full explanation has been given for each item in the comparative statement.

3. Copies of the District Board's Engineer's No. 148/D.B. of 1898, dated 13th May 1899, explaining the causes of excesses, and the District Board's resolution, dated 24th June 1899, approving the revised estimate, are enclosed.

ORDER—No. 2754 W., dated 18th October 1899.

The revised estimate, amounting to Rs. 66,600, for constructing an iron girder bridge over the salt creek at Coringa in the Gódávari district is sanctioned in supersession of the estimate of Rs. 60,500 sanctioned in G.O., No. 3395 W., dated 3rd December 1897.

2. This sanction has been registered as Local No. 15 W. of 1899–1900.

Letter No. 1977 G.E.

Dated 21/25.12.99. 1899.

From the S.E. I Circle

NOTE BY TECHNICAL SECTION.

Name of work Constructing an Iron girder bridge over Salt Creek at Coringa.

Revised Est: Rs: 66600.

1. The S.E in the above quoted letter submits a revised Estimate for this Bridge received from the District Board, for the sanction of Govt:

2. The original Estimate amounting to Rs: 60,500 was sanctioned in G.O No. 3395 W.G. 3-12-97 - the revised Estimate now submitted amounts to Rs 66600 a nearly 10 p.c in Ex. -cess of the original Sanction. The reasons for the Excess are explained in D. Board Engr: No. 640 T-2 21.4.99 attached.

3. A comparative statement accompanies the revised Estimate and the Excesses might be posted under the following heads.

	Rs:
(a) Increase in rates	759
(b) Deviations in design	1451
(c) — do — do materials	246
(d) Insufficient provision	1992
(e) Unforeseen works	2500
Total	6948
Savings	- 848
Net Excess Rs	6100

4. (a) The Excess under this head is due to the actual Cost for the iron girder Bridge sent by Burn & Co:

[P. W. 60. 250—18-7-99.]

(b) The excess in this case was due to the wells being sunk 34 feet deep instead of 18 feet as originally provided. These wells which are heavy had to be sunk until a bottom of hard clay was reached, until then they showed signs of shifting.

(c) Rubble stone in mortar was substituted for Pressed brick which reduced the cost of construction notwithstanding this that the quantity of work was greater than the original Estimate.

(d) In this case the original provision for such items as well curbs - pitching Supervision - Contingencies and thrifty abstractions, - was insufficient - hence excesses.

(e) The excesses under this head could not be foreseen - owing to heavy floods - which the cost of Raising was increased from Rs 1000 to Rs 1500 - and to prevent the sides of the Excavation from tumbling in while the wells were being sunk - strong shoring with tides to back to be resorted to at a cost of Rs 2000.

Savings. under Sanki to sinking Rs 2-6.
under Ramshipment and
erection charges of pedestals — Rs 822-
Total - Rs 848.

5. The Dist. Board's resolution of 24.6.99 approving of this revised Estimate is enclosed.
