amount not likely to be
for

Rs: 726 - Balance of unpaid --

Rs: 3,40,463/-

The value of English Stores -- likely to be charged to specific works during October, November and December -- 1899 based on the average actuals of -- the past 5 years amounts to Rs: 10,601. Adding to this Rs: 3,40,463 being the value of indents already certified to to end of September 1899 and unpaid -- items of last year (as shown in the margin) and the best estimate for -- London Account Stores for 1899-1900 -- would appear to be Rs: 3,51,064 or say Rs: 3,50,000 in round figures. This is much more than Rs: 1,43,000 adopted as the probable estimate for 1899-1900 -- in G.O.No.311 W dated the 2nd: February 1899- And if Government approves of the revised figure and will pass orders accordingly the Accountant General P.W.
