LETTER—from

Secretary to the Government of Madras,
Public Works Department,

To

THE DIRECTOR-GENERAL OF STORES,
INDIA OFFICE,
LONDON.

SIR,

I am directed to state that an indent for the apparatus required for lighthouses at certain stations in this Presidency was forwarded with my letter No. 271 W., dated 27th January 1899, with the remark that the apparatus would be indented for as funds become available. This was done to enable you to enter into more favourable terms with the manufacturers.

2. The lighthouses at Seven Pagodas and Pulicat (items 4 and 8, respectively, of the indent) are under construction and the towers are likely to be completed in a few months. I am therefore to request that the apparatus required for these lighthouses may be supplied as early as possible. The requisite provision of funds to meet the cost of the apparatus has been made in the estimates of the department for the current year.

3. The following figures are furnished to complete table I which accompanied my letter No. 270 W., dated 27th January 1899:—

	Height of tower from basement to lantern floor. FT. IN.	Bottom of weight shaft below lantern floor. FT.
Item 8—		
Pulicat lighthouse	37 8	36

I have the honour to be,
Sir
Your most obedient servant,

(Signed) W. B. DEWINTON,
Secretary to Government.
