It will be seen from Col. Shone's D.O. dated 17th April 1899 that the guard room and the sentry boxes are of such construction as to be easily removed to another site and will not therefore be an addition to the private building occupied by the Lieutenant General. Please therefore state whether in these circumstances the expenditure can be admitted against State funds.

If the proposed structures -- are to be moveable as stated there -- appears to be no objection to the outlay being debited against the Imperial Military Works grant. But I would point out that the estimate for the guard -- room provides for certain items of work such as "earthworks" and "masonrys" which -- apparently could not be removed to -- another site.

For Offg: C.

The expenditure on these items is unavoidable.
