Copy of letter from H. A. Squire, General Superintendent, P. W. Stores, to the Superintendent Engineer, 5 Circle, No 134 S.B.5, dated 1st December 99.

With reference to your No. 492 P.W.S dated 30 November 1899, I have the honour to request that you will be so good as to ask the Chief Engineer to wire for the materials to be sent as early as possible. We must have the materials if we are to get on with ~~our~~ work. If the price is rising at home, it will rise in a greater ratio out here, and to purchase material locally would lead to a still greater excess.

Please also wire that materials subsequently indented for should also be sent up separately without delay.
