LOCAL AND MUNICIPAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

Again G.O. No. 1618 L.Mis., dated 14th August 1899, forwarding to the Public Works Department, with remarks, an estimate for Rs 587 from the Sanitary Commissioner for carrying out certain alterations in his office building to accommodate the proposed Bacteriological Laboratory.

* Read also the following papers:—
Again G.O. No. 1845 L.Mis., dated 15th September 1899,

communicating to the Sanitary Commissioner, with remark, G.O. Public Works Department, forwarding to the Consulting Architect to Government for execution, an estimate for Rs 587 from the Sanitary Commissioner for carrying out certain alterations in his office building to accommodate the proposed Bacteriological Laboratory.

Read also the following papers:—

From the Sanitary Commissioner for Madras, No. 2429/S, dated 23rd September 1899, pointing out with reference to G.O. No. 1845 L.Mis., dated 15-9-99 that the amount required for altering his office building, may be met from the saving under "salaries" of his office budget.

From the Consulting Architect to the Government of Madras, No. 1947, dated 7th September 1899, stating that from the terms of the lease in connection with Stowe Hall the Government should merely execute ordinary repairs to it and not carry out structural alterations.

Order

Order No. 3368 L.Mis., dated 23rd November 1899.

With his letter No. 1854/S., dated 13th July 1899, the Sanitary Commissioner submitted an estimate for Rs 587 for altering the former kitchen of "Stowe Hall" for the accommodation of the proposed bacteriological laboratory, and in the first of the Proceedings read above, the Public Works Department was requested to instruct the Consulting Architect to Government to carry out the ^{required} alterations. As it now appears, however, that under the terms of the lease of the building, the Government is merely to execute ordinary repairs and not to carry out structural alterations, G.O. No. 1618 L, dated 14th August 1899, will be considered as cancelled. At the same time the Government is of opinion that the tenancy under which "Stowe Hall" is now occupied is inconvenient, and that steps should be taken to provide the Sanitary Commissioner with permanent Government quarters if possible. The Sanitary Commissioner is therefore requested to state, in consultation with the Sanitary Engineer, whether the buildings formerly used as the Women and children's Hospital would be suitable as permanent offices for the Sanitary Commissioner, the Sanitary Engineer and the Boiler Inspector and whether the proposed laboratory could then be arranged for in the building or the compound.
