of 18.11.98 flagged E since 8.V. No. 1930a
of the case. Para 3 of the facts
directed that as the 8.V.
on return from furlough
upon to explain his & he be called
having engaged his fiction in
authority.

Mr Malet explains
the arrangement & claims that
of the pumping plant is

ed in connection with
ing of the Coimbatore
l required special
al supervision. Mr.
engaged Mr. Winn for
as he was on the spot,
shops in Coimbatore at
and for executing repairs
very, & was an infinitely
gineer & mechanic to
nd get. Mr. Malet
at Mr. Winn was not
olely & separately for
ision of putting in the
the well but also to
the work. He therefore
to have considered ^{that} Mr.
ply taking up a contract
~~contractor~~, & was not
t by engaging him
of Rs 12 a day he was
para 110 (1), Chap I, Vol I
gvt. has decided
ignment to Mr. Winn should
as a lump sum contract
the special conditions & terms
ridable owing to the peculi-
alty of the work, Mr. Malet's
may be accepted.

~~AG SANITARY ENGINEER TO GOVERNMENT,~~

Public Works Department.

the cost of lowering the water level some 10 to 20 ft. to allow of the steining being got in to the estimated depth below water level.

I took Mr. Burlton to the work and explained it to him and also left a note on record that a revised estimate would be required. The arrangement and management of the pumping plant and steam pipes required special mechanical supervision. As Executive Engineer in charge I had only three alternatives (1) to get a Mechanic from the Public Works Shops (2) To pick up a Mechanic where I could (3) to employ Mr. Winn. I decided on the latter as Mr. Winn was on the spot- had workshops in Coimbatore at his command for executing repairs to machinery and was an infinitely superior Engineer and Mechanic to any one I could have got under alternatives (1) and (2) above. It did not occur to me at the time that I was contravening a Code rule. I considered Mr. Winn was taking up a contract under me in the usual way but under somewhat special conditions and terms which were unavoidable owing to peculiarity and difficulty of the work that had to be executed.

I have the honour to be,

Sir,

Your most obedient servant,

Allan H. H. H.

23. 11

Ag. Sanitary Engineer to Govt.
