was being met from Provincial funds.		5587C	10.12.98
The Dy. Adjutant General now requests that Govt. will specially sanction the re-employment of a watchman, or gardener, for the Mount Stuart buildings, as there is no one to keep the roads & paths leading to the offices clean & free from weeds. As the roads & paths are said to be looking untidy since the withdrawal of the watchman, this individual was evidently really doing the work of a gardener.		2262C	10.5.98
As a gardener is necessary to look after the extensive ground round the Army Hd. Qr. offices, & as Provincial receives receives rent for these buildings, the employment of a gardener is recommended for sanction.

Copy of a letter No. B/W 17640

dated 1st November 1898
from the D. A. G. Madras Command
to the Executive Engineer, Bangalore D. R. D.
through the Sub Divisional Officer, P. W. D. Coimbatore.

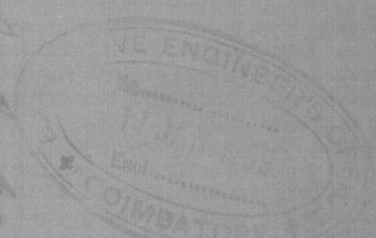

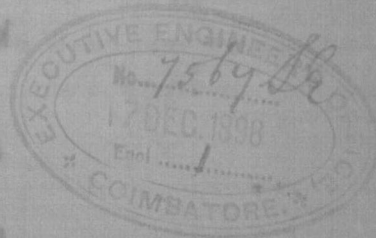

It is observed that the watchman allowed by the Public Works Department, to look after the whole of "Mount Stuart" Hill, and to keep the roads and paths thereon leading to the offices clean and free from weeds, has recently been withdrawn without this office being consulted in the matter.

2. As pointed out in this office letter No. 2226 B of the 8th December 1893, to the Sub Divisional Officer, P. W. D. Coimbatore, the two sweepers employed by the Military Department cannot perform the above work, as they are fully occupied in keeping clean the offices and ground in their immediate vicinity, and I have therefore the honour to request that you will be so good as to issue early instructions for the watchman to be again employed here.

I may add that the roads and paths on the Hill already look untidy, owing to the withdrawal of the watchman.

Sir,

ENCLOSURE.

Referring to your letter No. 13/W. 17640 dated 1st November 1898, I have the honour to inform you that the services of the watchmen were dispensed with with reference to a Circular from the Chief Engineer directing the preparation of lists to determine which buildings were to be occupied by the men, might be his missed. It being represented that watchmen were only necessary to look after unoccupied buildings or those only temporarily occupied during the residence of the Government on the hills, it was considered to be wrong in principle to employ a watchman for the Mount Stuart buildings particularly as his pay was met from Provincial funds.

2. The repairs of the roads and paths on Mount Stuart Hill are being done
