542

DATED 26th June 1897

[Despatch Abstract.]

Kistna Delta System

Estimate of Rs 3,330 for excavating Manjula
affluent of the Bantumilli Canal, — sanctioned.
and a copy of these Proceedings ordered to be forwarded
to the Govt of India.

Kistna Delta System

Forwarding copy of Proceedings of the Govt sanctioning
an estimate of Rs 3,330 for excavating Manjula
affluent of the Bantumilli Canal, —

Forwarding copy of proceedings sanctioning an estimate of Rs. 3,330 for excavating Munjular affluent of the Bantumilli canal, —.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

READ—the following papers:—

From the Superintending Engineer, II Circle, dated 20th April 1899, No. 130 I.

ENCLOSURE.

REPORT to accompany estimate for excavating Munjular affluent amounting to Rs. 2,860.

This affluent is to start from the right side of Bantumilli canal at about 46/5 mile to discharge the drainages of lands lying between Munjular channel at 46/i mile and Arthamur channel at 46/vii.

This affluent is designed to carry the drainage water from two square miles of land into the Luzzabunda drain. For want of this drain the existing irrigation between the above two channels is subject to submersion and consequently to loss of crops during heavy rain, besides which about 400 acres of land are left waste every year. If the affluent is excavated, the waste land will become fit for wet cultivation and it will be protected from submersion. The drain is to carry 3 feet of water with a bed width of 3 feet at head and 12 feet at the tail.

(Signed) J. S. WILSON,
Executive Engineer, Kistna Eastern Division.

No. 105 I.

Note by the Chief Engineer for Irrigation.

The Superintending Engineer, II Circle, submits for sanction the accompanying estimate of Rs. 2,860 for excavating Munjular affluent of the Bantumilli canal, for draining the lands lying between the Munjular and Arthamur channels, in the Kistna Eastern delta. As it is anticipated that the proposed work will also render fit for wet cultivation 400 acres of land which are now left waste every year owing to submersion, the estimate may be sanctioned as a "remunerative" work.

8th May 1899.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

ORDER—No. 541 I., dated 26th June 1899.

The following estimate is sanctioned:—

Capital Expenditure not charged to Revenue.
