with

with the Collector's letter, it appears that the head of the ---
spring channel has been silted up on account of the breach in the
channel bund caused by the extraordinary floods of 1884. Under --
ordinary circumstances, the work of clearance of silt should be --
attended to by the ryots interested. It is reported that the --
present condition of the spring channel was not occasioned by any
neglect or carelessness on the part of the ryots, but by the extraordi-
nary circumstances referred to above, and that, though the ryots have
done their best towards excavating the silted spring, the complete
repair of the same is a work beyond their means. The ayakat under
the channel is stated to be 248.70 acres. Out of a total assess-
ment of Rs. 802, Rs. 213-13-0 being the assessment on 49.13 acres are
reported to have been remitted during fasli 1307. In these cir--
cumstances, the Board recommends that Government will be pleased
to accord its sanction for the work referred to.

O R D E R thereon Misc.No.2187 dated 19th June 1899.

It is reported that the ryots have done their best
and that the silting up is due to exceptional causes.

2. In the circumstances the repair of the spring ---
channel at the cost of Government is sanctioned as a special
case.
