but if they can be got cheaper
from England & are in store,
this is no reason at all -
ask for cost here I think

copy of letter from H. A. Moss, Engineer, General Superintendent, P. W. Stores, to the Supg. Engineer, 5 Circle, No. 223 S. dated 7th February 1899:—

With reference to your No. 21 P. W. S. dated 27th January 1899, and its enclosures (herewith returned) I have the honour to inform you that the cost of making brass pad locks of good quality at the P. W. Workshop is as a rule less than the cost of purchasing equally good imported locks. The inferior sort of cheap common locks cannot be made here as cheaply as they can be bought. The Director General of Stores letter refers to box locks which we very seldom use here.

Note. There seems the most
reason why the Dindigul locks
should not be used. Govt. itself has
ordered that they should be utilised
wherever practicable in place of
Chubb's locks. Please see paper

Memorandum

With reference to his
No 795 W.D. 21st Decr. 1898,
the Supty. Engr., T Circle, is
requested to be so good
as to report the cost of
making brass padlocks in
the workshops. If it will
be cheaper to get the locks
in store at the India Office,
there is no reason why they
should not be procured
& kept in the P.W. Stores
for the use of the dept.
