CURRENT No. 137

Order No 5 E.W.D. 13-2-99.

Forwarded to W.

If there is no experienced Asst Eng. who can be sent to the work I would suggest that Mr. Stoney should be put in charge of the Subd. with a well-experienced Subordinate to assist him.

SUBJECT.

Special Sub Division
for the Upper Coleroon
Ancient Works.

Requesting to accord
Sanction to the forma-
-tion of -

SHW

CHIEF OF POLICE
FOR THE MONTH
16 FEB. 1899
137f

2. The Estimate for this work amounts to Rs. 5,34,000 of which Rs. 2,76,000 is for the Shutters, which will be made in Public Works Workshops, the amount to be spent on actual work at site is Rs. 2,59,000. This will consist of the sinking of wells and building the superstructure to which the Shutters mentioned above, will be fitted. This work will require contract-

It would be quite
impossible to Supervision by an experienced Staff. I am
convinced, with the most of opinion, that an Assistant Engineer and
Inspector with
the ordinary a Supervisor with the necessary Establish-
ment should be appointed to the charge
of the Division.

Ans
2/2/99

of this work. I need not enter into details of the work to be carried out, as this is already known to you.

3. I have applied for the clerical staff

From

from the 1st April next, but I should like the Assistant Engineer to join early in March so as to go over the plans and Eskimoes with him, and commence laying out the centre lines and have every thing ready to start actual work by the 1st April.

4. The actual working season will be probably from middle of March to the middle or end of June. This will depend on state of water in the River. During the non-working season the staff will have to look after the collection of materials, get out working drawings ~~for~~ the construction of the Arch and designs of the centering &c.

5. The Sub Division will be required for at least two years, and probably for three years.

6. I request you will be good enough to move Government to sanction the special Sub Division asked for.

No 21

To the Chief Engineer P. W. Depart.
ment through the Chief Engineer for
Prigakion for favour of according the
sanction to the formation of a special
Sub.

Sub Division for Upper Coleroon &
Ancient Improvements and posting
an Assistant Engineer and a Supervisor
to the work.

Application for the necessary
clerical Establishment will be submitted
on receipt of sanction.
