From J. C. LARMINIE, Esq., M.I.C.E., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 11th October 1897, No. 1245 G.D.

With reference to your endorsement No. 2371 C.,* dated 7th May 1897, I have the honour to forward herewith a fresh estimate, amounting to Rs. 1,250, for constructing quarters for the Hospital Assistant at Polavaram prepared by the Deputy Tahsildar in lieu of the one already submitted by him for Rs. 957 as it was prepared by one of little professional knowledge.

* Herewith returned with enclosures.

In framing the estimate the standard plan circulated with G.O., No. 1796 W., dated 19th July 1895, was adopted with the exceptions noted in the specification accompanying the estimate.

Note by the Chief Engineer, Public Works Department.

The estimate, amounting to Rs. 1,250, for constructing quarters for the Hospital Assistant's quarters at Polavaram in the Gódávari district, is based almost on the plan now proposed to be issued as a type design except that no latrine accommodation has been provided.

The roof in type design is hipped and carried on brick in mortar pillars, whereas in the case under reference it is gabled on burnt brick in clay walling.

The doors and windows in type design are of larger area than the Polavaram design.

The materials of construction for the Polavaram quarters are almost the same as those estimated on the type design, except that no flat tiles are provided in the roofing.

The estimate may be sanctioned.

for Chief Engineer.

No. 5052 C.

Forwarded to the Public Department with reference to endorsement in that department, No. 666, dated 16th March 1897.
