94 High Holborn W.C.

London, December 1st 1898.

To
The Right Honourable Lord George Hamilton, M.P., K.C.S.
Her Majesty's Secretary of State for India.

My Lord,

I beg to call your Lordship's attention to the new and
important treatise on Sanitary Engineering by Colonel R.C.
S. Moore R.E., which I have just published, and a copy of
which I beg to send herewith for your Lordship's kind
inspection.

It has been pointed out to me that the vital importance
of Sanitary matters in India at the present time, render
a complete Text book on the subject, such as Colonel
Moore's of the greatest value to Executive Engineers and
other officials of the Public Works Department who are in
any way connected with Sanitation; and I venture to think
that a glance through Colonel Moore's Treatise will
suffice to shew your Lordship that the work is of great
practical value, and worthy of the important subject with
which it deals.

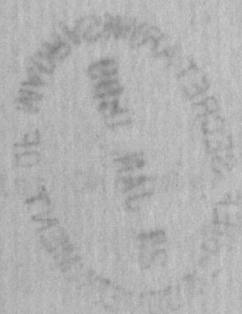

The published price of the book is £1. 10. 0 sterling
net, and I shall be pleased to supply 100 or more copies

for the use of Sanitary Officials in India at the reduced
price of £1. 0. 0 per copy.

Awaiting your Lordship's pleasure, and trusting to be
favoured with your esteemed commands,

I have &c.,

(sd) B.T. Batsford.
