Endorsement of the Secretary, Settlement Department, No.1841 Routine, dated 27th July 1899, transferring to the Land Revenue Department, the following letter from the Ag. Collector of Tinnevelly, R.C.No.937/genl. of 1899 dated 19th July 1899.

I have the honour to report that with reference to G.O.No.283 Revenue dated 1st May 1899, the Managers of the Tinnevelly Mill Company, Papanasam were requested to pay the sum of Rs.2354-13-5 on account of the charge due up to last May for the use of water for the Mill. They have informed me that they are not in a position to make the payment asked for pending instructions from their shareholders in England. I have the honour to request the Board's orders as to whether the amount should be at once collected by issue of processes under Act II of 1864.

Resolution:-

Resolution.

The Board considers that no proceedings can be taken under Madras Act II of 1864 for the recovery of the charge for water due from the Tinnevelly Mills Company. For the payment due is neither governed by Madras Act VII of 1865 (Vide para 8 (1) of Board's Proceedings No.143 dated 5th May 1897); nor does it fall within the meaning of the word "revenue" occurring in section 52 of Act II of 1864, since it is an amount due under a special contract.

2. With reference to para 12 of the Government Order communicated with Board's Proceedings No.83 dated 17th March 1899 Settlement, however, the Collector may move the Superintending Engineer to issue a notice to the Managers of the Company (i) specifying a date within which the specified charge for water due from them should be paid & (ii) stating that the entire water supply will be cut off under the conditions laid down in the Government Order in the event of their making default. If the managers fail to pay the amount demanded before the date fixed, in the notice, the Superintending Engineer will then be entitled to cut off the supply to enforce payment.
