MARCH.

Rest-house at Coromandel

The proposal of the Executive Engineer, Chingleput division, to take the materials of the — that are required for the proposed rest-houses at Ponnéri and Periakambur, and to sell the rest of the materials by auction, sanctioned.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

Read—the following paper :—

From Colonel C. C. RAWSON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Chief Engineer for Irrigation), dated Uppur anicut, 24th November 1898, No. 2 W./C.

I have the honour to forward copy of letter No. 2751, dated 10th October 1898, from the Executive Engineer, Chingleput, and to recommend that the Coromandel rest-house be transferred to the Forest Department free of cost.

Now that officers and subordinates employed on the Buckingham canal are provided with boats, this rest-house is never used. The cost of maintaining the bungalow in good order is more than the canal ought to pay for a building that is practically useless.

Enclosure.

From J. E. PAUL, Esq., Executive Engineer, Chingleput division, to the Superintending Engineer, V Circle, dated 12th October 1898, No. 2717 S./E.

With reference to your No. 13 C.N./C., dated the 12th April 1898, I have the honour to inform you that the rest-house at Coromandel which was purchased for Rs. 2,000 in the year 1880, having been very badly cracked by the earthquake in 1897 and being no longer required for canal purposes, the Collector of Chingleput and officers of other department were addressed, inquiring whether any of them required the building at Rs. 1,000—half the original cost.

There are no applications for it except from the Collector who required it for the Forest Department free of charge.

I enclose his letter No. 1848, dated 27th July 1898, with Forest officer's letter and recommend that the sanction of the Government of India may be applied for under Public Works Code, Vol. II, Chapter III, paragraph 125, for the building and the ground attached thereto, viz., 2 acres 43 cents, with 306 trees, principally young casurina trees, standing thereon, being transferred to the Forest Department free of cost.

No. 378.

Forwarded to the Examiner of Public Works Accounts for favour of remarks before submission of the application to the Chief Engineer, Public Works Department.

10th December 1898. (Signed) F. J. WILSON,
Deputy Chief Engineer for Irrigation.

Office-note from the Examiner, Public Works Accounts, dated Madras, 19th December 1898, No. 4282 B./A.

The building having been constructed from Provincial Funds its disposal lies entirely within the powers of the Local Government (Code I. X. 20) who may therefore transfer the building in question to the Forest Department free of charge. It should however be clearly recorded that the building is made over free of charge as the upkeep of it is a drain on the Capital and Revenue account of the Buckingham canal.

No. 1/E.W.

Forwarded to the Chief Engineer, Public Works Department.
The Superintending Engineer's recommendation is approved.

3rd January 1899. (Signed) W. HUGHES,
Chief Engineer for Irrigation.

No. 843 C.

With reference to his letter No. 2 W./C., dated 24th November 1898, the Superintending Engineer, V Circle, is informed that the Forest Department do not now require the rest-house at Coromandel.

2. As the building is no longer required for canal purposes, and its maintenance is a drain on the Capital and Revenue Account of the Buckingham canal, the Superintending Engineer should submit proposals for selling or demolishing it.

8th February 1899. (Signed) A. W. SMART, Colonel, R.E.,
Ag. Chief Engineer.

From J. E. PAUL, Esq., Executive Engineer, Chingleput Division, to the Superintending Engineer, V Circle, dated Madras, 27th February 1899, No. 4493 S.E.

In reference to your endorsement, No. 72 C.N./C., dated 16th February 1899, I have the honour to propose that I should take what material is required for the rest-houses at Ponnéri and Periakambur in the Ponnéri taluk, at both of which places inspection sheds are required for officers when inspecting irrigation works, and sell the rest of the materials by auction.

No. 159 W.

Copy submitted to the Chief Engineer, Public Works Department, with reference to his memo., No. 843 C., dated 8th February 1899.

2. It is recommended that the proposal of the Executive Engineer, Chingleput, for disposing of the material appertaining to the rest-house at Coromandel in the manner suggested may be sanctioned. The proposed rest-houses have not yet been sanctioned.

7th March 1899. (Signed) C. C. RAWSON, Colonel, R.E.,
Suptg. Engineer, V Circle.

Order—No. 846 W., dated 18th March 1899.

The Executive Engineer's proposal is sanctioned.

(True Extract.)

were willing to take it over free of charge, but subsequently declined to do so when they found that heavy repairs would be required to make it safe.

This rest house is now not used by the Canal Officers or Subordinates, & the cost of maintaining the building in good order is more than the Buckingham Canal ought to pay for a building which is of no use to it.

The Ex: Engr., Chingleput Division, proposes to take what materials are required for the rest houses which it is proposed to construct at Ponneri & Peria=Kambur, & sell the rest of the materials of the Coromandel rest house by auction.

It is submitted that this proposal may be sanctioned.

SUBJECT.

Rest House at Coromandel

Forwards an office Note from the Examiner and States that the S. E's recommendation to transfer the — to the Forest Department free of cost is approved.

Note - The Rest House at Coromandel, which was purchased for Rs 2000 in the year 1880, having been very badly cracked by an earthquake in 1897, & being no longer required for Canal purposes, inquiries were made whether any

any other dept. would take the building at Rs 1000, half its original price.

The only application for it is from the Forest Dept. who are willing to take it free of cost.

The rest house is never used by the Canal officers or subordinates, & the cost of maintaining the bungalow in good order is more than the Canal ought to pay for a building which is of no use to it.

The Supdg. Engr., V Circle, & the Chief Engr. for Irrigation recommend the transfer of the building to the Forest Dept. free of cost, & to this there is no objection.
