Ex. Engineer, Nellore Divn.

No. 319 I.

Forwarded to the Chief Engineer for Irrigation with reference to paragraph 2 of G.O., No. 703 I., dated 16th August 1899, for sanction, if approved.

14th September 1899. (Signed) W. M. ELLIS, Major, R.E.,
Suptg. Engineer, II Circle.

From W. C. DEMORGAN, Esq., M.I.C.E., Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Camp, Bank Canal, 29th August 1899, No. 819, G.N.

Referring to paragraph 2 of your note printed with G.O., No. 583 I., dated 12th July 1899, I have the honour to inform you that the amount required for items 15, 16, and 34 of the statement appended to the Government order cannot be appropriated from the provision of Rs. 5,323 made for items 10, 16, 20, 23 and 31 of the Minor Works and Navigation budget estimates.

Item 10.—An estimate of Rs. 2,630 for this work has been received from the Executive Engineer and is under consideration.

Item 31.—An estimate of Rs. 480 has been sanctioned for this item.

Items 16, 20 *and* 23.—These works involve a good deal of levelling, consequently their estimates will not be ready till next year, but several new estimates have since been sanctioned under capital account for which funds are not provided in the budget. To take up these works, the Executive Engineer says that an additional grant of Rs. 4,600 would be required for which he promises to send in an application. Under these circumstances, the Executive Engineer is unable to spare any portion of the grant of Rs. 5,323 for transfer elsewhere.

From Lieut.-Colonel W. L. C. BADDELEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer for Irrigation, Tank Restoration Scheme, dated Bellary, 26th August 1899, No. 3137 T.

With reference to your No. 1420 T., dated 21st July 1899, I have the honour to request that you will be good enough to obtain the full allotment of Rs. 2,940 for repairing the Tholamamudi spring channel during the current official year.

Endorsement by the Assistant Chief Engineer for Irrigation, Tank Restoration Scheme, dated 1st September 1899, No. 1759 T.

Forwarded for disposal.

(Signed) R. N. H. REID,
Asst. Chief Engineer for Irrigation, T.R.S.

No. 331 E.I.

Submitted to the Chief Engineer for Irrigation, with request that he will be so good as to obtain the sanction of Government to the modifications herein applied for.

(Signed) A. W. SMART, Colonel, R.E.,
Suptg. Engineer, V Circle.

13th September 1899.

No. 196 I.

Note by the Chief Engineer for Irrigation.

With reference to G.O., No. 703 I., dated 16th August 1899, communicating letter from the Government of India sanctioning the amalgamation of the accounts of the Penner and Sangam anicut systems, and intimating that expenditure on the combined projects during the current year may be charged to "49. Irrigation," the Superintending Engineer, II Circle, has surrendered the current year's budget grant of Rs. 49,200 including establishment and tools and plant charges under "Provincial 43. Minor Works and Navigation" for the Sangam anicut system. Rs. 1,245 of this amount having already been re-appropriated in G.O., No. 687 I., dated 10th August 1899, the balance, viz., Rs. 47,955, may be transferred to meet the unprovided balances of the demands referred to in the marginally-noted orders, and the demands now made for additional allotments under ordinary original works in the Ganjám and Vizagapatam divisions, agricultural original works in the Vizagapatam division, and under Revenue account of the Buckingham canal, and a part of the demand for Minor Works, Revenue Department, in the Bellary division. There are no funds available, at present, to meet the balance of the last demand.

G.O., No. 622 I., dated 21st July 1899.

SIR, Referring to para 2 of your note printed with G.O. No. 583 d. 12th July 99, I have the honor to inform you that the amounts required for items 15, 16, and 34 of the State-ment appended to the G.O. cannot be appro-priated from the provision of Rs 5,323 made for items 10, 16, 20, 23 and 31 of the minor works and navigation budget estimates.

Item 10:. An estimate of Rs 2630 for this work has been received from the Executive Engineer and is under consideration.

Item 31:. An estimate of Rs 4801 has been sanctioned for this item.

Items 16, 20 & 23:- These works involve a good deal of levelling, consequently their estimates will not be ready till next year,

but

but several new estimates have since been sanctioned under Capital account for which funds are not provided in the budget. To take up these works, the Executive Engineer says that an additional grant of Rs 4600/ would be required for which he promises to send in an application. Under these circumstances, the Executive Engineer is unable to spare any portion of the grant of Rs 5323 for transfer elsewhere.

No. ______, dated the ____________ 189 .

NOTES.

Reference to P. W. D. Code.

Vol. II, Chapter IV, para. 135 (h).

1. This form should be used by the Executive Engineer in any of the following cases:—
   - (*a*).—When he requires a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.
   - (*b*).—When he is unable to utilize the grant at his disposal for any work and wishes to resign it either wholly or in part.
   - (*c*).—When he wishes to utilize the grant for one work upon some other.
2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.
3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.
4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus:—

______________ PROJECT.

(1).—Head works—
(*B*). Land.
(*K*). Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by executive officers, and this form employed the moment the facts are sufficiently known.
6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

Irrigation.

READ—the following paper :—

From O. C. LEES, Esq., Under Secretary to the Government of India, Public Works Department (Civil Works—Irrigation), to the Joint Secretary to the Government of Madras, Public Works Department, Irrigation Branch, dated Simla, 20th July 1899, No. 738 C.W.I.

> "Your telegram one first May. Nellore channel may be begun at once and cost debited to open capital account Penner project under 49 pending orders on proposed amalgamation of Penner and Sangam projects. If additional grant is required under 49, application may be submitted."

In continuation of this office telegram No. 581 W., dated the 15th June 1899, reproduced on the margin, I am directed to convey the sanction of the Government of India to the amalgamation of the accounts of the Sangam and Penner anicut systems, the combined projects being known in future as the "Penner River Canals."

2. The amalgamation of the accounts should have effect from the current year and expenditure during 1899-1900 may be charged to "49. Irrigation."

ORDER—No. 703 I., dated 16th August 1899.

Communicated to the officers concerned for information and guidance, in continuation of G.O., No. 545 I., dated 28th June 1899.

2. As the outlay on diverting the surplus water of the Kanigiri reservoir of the Sangam anicut system into the Pyderu, for which an estimate of Rs. 2,08,000 was sanctioned by the Government of India in its letter printed in Proceedings of Madras Government No. 407 I., dated 9th May 1896, will now have to be met from "49. Capital Expenditure not charged to Revenue," the Superintending Engineer, II Circle, will, as soon as possible, surrender the current year's grant for the work under "43. Minor Works—Provincial" and submit an application for the funds required for expenditure on it during the current year under the former head. The Superintending Engineer's attention is drawn to Proceedings of Madras Government No. 678 I., dated 5th August 1899, directing the submission of a revised estimate for this project without delay.
