Enc: No: 15 this office no ¹³⁴⁵ 12-3-99

Copy of letter No: 3209 of 6.1.99 from A.C.
Langston Esq. Sec Engineer Godavari
Central Div to the Supt Engr 18. Ciel

In returning herewith President D. Board
No: 2453 of 12.12.98 bearing your endorsement
No: 1962 of 27.12.98 together with its enclosures
I have the honour to say that a report has
been added to the Estimate giving the reasons
for its preparation and showing the necessity
of the work. A copy of President D. Board's
No: 1779 of 1.11.98 is also put up as requested.

2. Since the preparation of the Estimate, I
have had an opportunity of forming some
idea as to the necessity for the work and
I am of opinion that it should not be
put in hand until the necessity for it
has been proved without any doubt.
3. In the second week of November last there
was heavy continuous rain for about 3 days
which was general throughout the District and
whilst the low lying part of the Delta suffered
in the usual way, these high lands were in
no way damaged and there must have
been very little rain off from the area
in question because the deep pits dug to
form the bank were dry when I inspected
them on 14.11.98. These high lands, some
of which are sandy, seem to absorb any
quantity of water. I have noticed the
same

Same on the right side of main canal in
connection with Kathunga Drain, the
outfall sluice to which has been rightly
described very much smaller than would
be required for the same area with the Co-
efficient of 80 which is generally used
in the Delta and which is by no means
too large for the lower-lying portions.

To
THE President
District Board
Godavari

DATED 11
DESPATCHED
RECEIVED } January 1899.

ENCLOSURES.

SUBJECT.

Sir,

I have the honour to forward with reference to your
Ref. C 2453 of 12.12.98, Copy of No. 3209 from the Exec
DB Engineer, Godavari Central D.

2. From para 2 of this letter, you will observe
that the Exec Engineer does not consider the
necessity of the outfall sluice to be Con-
clusively proved, and gives reason for
his opinion.

3. I agree with him and consider that
the construction of the work should be deferred
for the present.

from *EL. G. C. S. O. S. Thile*

Letter no: 4362 of 11-1-89
from *SET Thile to the President of the*

SIR,

Referring to G.O. no. 35910 of 4-2-89, I have the honour to bring to your notice that the necessity for the work of constructing an outfall sluice at the 4th mile, Godavari Right Bank has not yet been distinctly proved and I am of opinion that the work should not be commenced until the matter has been finally decided.

2. I enclose for your perusal a copy of my letter No. 4362 of 11-1-89 to the President of the Board, Godavari.

3. Under these circumstances I have the honour to request that the Contribution now sanctioned be paid back.

I have the honour to be

Yours obediently
Demangan
