No. 319 I.

Forwarded to the Chief Engineer for Irrigation with reference to paragraph 2 of G.O., No. 703 I., dated 16th August 1899, for sanction if approved.

(Signed) W. M. ELLIS, Major, R.E.,
14th September 1899. Suptg. Engineer, II Circle.

From Major W. M. ELLIS, R.E., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated Bezwada, 19th September 1899, No. 327 I.

In continuation of this office No. 319 I., dated 14th September 1899, forwarding an application for additional funds required under 49. Capital for the work "Diverting the surplus water of the Kanigiri reservoir into Pyderu," I have the honour to bring to your notice that there was an outlay of Rs. 17,230 incurred on this work under 43. Minor Works and Navigation during 1898-99, and this has to be written back to 49. Capital agreeably to G.O., No. 703 I., dated 16th August 1899.

If this sum is to be debited to the current year's allotments under 49 and credited to 43, another application for funds under 49 for this purpose will be necessary and a corresponding surrender under 43.

Instructions on this point are requested.

Office-note from the Examiner, Public Works Accounts, dated Madras, 21st September 1899, No. 1137 A./A.

[G.O., No. 703 I., dated 16th August 1899.]

If, as I suppose, it is the intention of the Government of India order not to disturb the incidence of charge under 43. Minor Works and Navigation in previous year, *i.e.*, up to 31st March 1899, sanctions accorded to works as per annexed statement,

which remained incomplete on 1st April 1899, will have to be cancelled and resanctioned under 49. Capital.

—	1897-98.	1898-99.	Total.
	RS.	RS.	RS.
Works	6,234	17,893	24,127
Establishment ..	1,434	4,115	5,549
Tools and plant ..	93	..	93
Total ..	7,761	22,008	29,769

2. If, on the other hand, it is intended that the past expenditure should also be written back to 49, it will then be necessary to apply to India for additional funds under 49 to the extent of Rs. 24,127, or Rs. 29,769 including establishment and tools and plant, as per margin, to cover the write-back to 49. Capital.

ENCLOSURE.

LIST of works sanctioned under 43. Minor Works for which Capital and Revenue Accounts are kept (Capital) in Nellore Division, Sangam Anicut System.

No. 195 I.

Note by the Chief Engineer for Irrigation.

With reference to G.O., No. 703 I., dated 16th August 1899, communicating letter from the Government of India sanctioning the amalgamation of the accounts of the Penner and Sangam anicut systems and intimating that the current year's expenditure on the combined project may be charged to "49. Irrigation," the Superintending Engineer, II Circle, applies for an additional grant of Rs. 49,200, including the charge for establishment, under "49. Capital expenditure not charged to Revenue," for expenditure on the system during the current year in lieu of the budget grant of Rs. 49,200 for the Sangam anicut system under, "Provincial, 43. Minor Works and Navigation," which has been surrendered and appropriated to meet other demands.

2. The expenditure incurred on the Sangam anicut system on Capital account during the past two years was, under the orders of the Government of India charged to "Provincial, 43. Minor Works and Navigation." The Examiner of Public Works Accounts states that it is not clear from the Government of India letter referred to in paragraph 1 whether it is the intention that this outlay should be written back to "49. Capital expenditure not charged to Revenue" and that, if it is intended that the write-back should be made in the current year, a further grant of Rs. 29,769 * would be necessary. It is recommended that the Government of India be requested to sanction an additional grant of Rs. 78,969 if it considers that the write-back should be made during the current year.

	Rs.
* Works	24,127
Establishment	5,549
Tools and plant	93
Total ...	29,769

3. The Superintending Engineer, I Circle, having reported that an additional grant of Rs. 9,274, including the charge for establishment, is required for the Rushikulya project under "35. Construction of Protective Irrigation Works" for expenditure on certain sanctioned works, the Government of India may, it is also recommended, be requested to sanction an additional assignment of say Rs. 9,300.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

NOTES.

Reference to P. W. D. Code.

Vol. II, Chapter IV, para. 135 (h).

1. This form should be used by the Executive Engineer in any of the following cases :—

(*a*).—When he requires a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(*b*).—When he is unable to utilize the grant at his disposal for any work and wishes to resign it, either wholly or in part.

(*c*).—When he wishes to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus :—

_____ PROJECT.

(1).—HEAD WORKS—

(*B*). Land.
(*K*). Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by executive officers, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

This additional grant is required for putting in hand the branch channels sanctioned in G.O. Nos 589 I dated 14.7.99 and 602 I dated 18.7.99 and for the under tunnel below Sonkia Nallah aqueduct sanctioned by S.E.O.

To

I.

G.O.No.703 I dated I6th: August - I899.

If-as I suppose-it is the intention of the Government of India -- order not to disturb the incidence of charge under 43 Minor Works & Naviga-- tion,in previous year i.e. up to 3Ist: March I899,sanctions accorded to works as per annexed statement,which remained incomplete on Ist: April I899 will have to be cancelled and resanctioned under 49 Capital.

2. If on the other hand,it is intended that the past expenditure -- should also be written back to 49 it - will then be necessary to apply to -- India for additional funds under 49 -- to the extent of Rs: 24,I27/- , or Rs: 29,769/- including Establishment and - Tools & Plant,as per margin,to cover the write back to 49 Capital.

	I897-98 Rs:	I898-99 Rs:	Total Rs:
Works	6,234	I7,893	24,I27
Establishment	I,434	4,II5	5,549
Tools & Plant	93	..	93

2 SEP 1899
67 N.L

Sir,

Enclosures.

R 63 N.L. with 2 Enc.

In continuation of this office No. 3199 dated 14th September 1899 forwarding an application for additional funds required under 49 Capital for the work "Diverting the surplus waters of the Kanigiri Reservoir into Sydera", I have the honour to bring to your notice that there was an outlay of Rs. 17,230 incurred on this work under 43 Minor Works and Navigation during 1898-99 and this has to be written back to 49 Capital agreeably to G.O. No. 703 I dated 16th August 1899

If this sum is to be debited to the current year's allotment to under 49 and credited to 43, and the application for funds under 49 to

for this purpose will be necessary and a corresponding surrender under ¶ 3.

Instructions on this point are requested.

I have the honour to be,
Sir
Your most obedient Servant

P. W. D.
SECOND CIRCLE

NOTES.

Reference to P. W. D. Code.

Vol. II, Chapter IV, para. 135 (h).

1. This form should be used by the Executive Engineer in any of the following cases:—

(*a*).—When he requires a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(*b*).—When he is unable to utilize the grant at his disposal for any work and wishes to resign it either wholly or in part.

(*c*).—When he wishes to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus:—

_____ PROJECT.

(1).—HEAD WORKS—

(*B*). Land.
(*K*). Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by executive officers, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.
