ORDER. No. 977 W, 6.4.99

The papers read above relate to an application for sanction to the entertainment, in the Bellary Division, of 2 additional Clerks on Rs 20 each and 1 tracer on Rs 15 per mensem. After a careful consideration of the reasons advanced by the Executive Engineer in support of the proposal, H.E. the Governor in Council is of opinion that one clerk on Rs 20 per mensem for a period of one year should for the present suffice. Provision will, accordingly, be made in the proposition statement of temporary establishment for the III Circle for 1899-1900, which is being separately considered.

P. W. DEPART

READ the following:—

From the Supdg. Engineer III Circle No. 22 W, ~~dated~~, dated 3 January 1899.
Office note from the Examiner P. W. Accounts No. 139 B/E dated 12 January 1899.
Telegram from the Superintending Engineer III Circle, dated 30 January 1899.
From the Supdg. Engineer III circle No. 688 W, dated 17 February 1899.
From the Chief Engineer for Irrigation T.R.S., No. 378 T, dated 22 February 1899.

Circulated to His Excellency the Governor. √

FOR ORDERS.

With his letter No. 22 W, dated 3 January, 1899, the Superintending Engineer, III Circle, submitted a proposition statement for the entertainment in the Bellary Division of 2 additional clerks on Rs 20 each, and 1 tracer on 15 per mensem. The reasons adduced in support of the application were:—

(1) The execution by the P. W. D of the minor works connected with Tank Restoration, which should in the ordinary course be carried out by the Revenue Department.

(2) The rapid expansion of work in the Divisional office, which is proved by the statistics given in para 6 of the Executive Engineer's letter No. 9037, dated 12 December, 1898,

HC/

Dir/W.

2. The application was returned to the Superintending Engineer for report as to when the Tank Restoration party commenced its work, how long it would continue, and why the minor Irrigation Works were undertaken by this Department. In reply, the Executive Engineer states that the party has been temporarily transferred to the Chingleput Division, owing to plague at Hindupur, and that in the meantime sanctioned estimates will continue to come in although the investigation is temporarily suspended. The Chief Engineer for Irrigation, to whom the papers were referred unofficially, reports that estimates for 48 tanks have been sanctioned, and estimates for 10 more are under disposal; that the party is not likely to return to Anantapur within 12 months; that it is likely, where it returns, to continue there for at least 5 years, and that, so far as he is aware, no other Division has applied for extra Establishment on account of T.R.S. work. The last statement is inaccurate as there are divisions where additional establishment has been allowed for work connected with the execution of T.R.S. works.

3. The question for consideration is what additional establishment is necessary for the Bellary Division office for the execution of the 58 T.R.S. estimates above referred to, and for coping with the increase of work, as evidenced by the statistics furnished by the Executive Engineer in para 6 of his letter No. 9037, dated 12th December, 1898. In a separate letter it has been brought to notice that the accounts of the Division are, owing to the late famine, much in arrears. For these reasons it is recommended that one additional hand on Rs 20 per mensem may, for the present, be sanctioned for one year.

FURTHER PAPERS.

No.	Date.

Letter from H. E. Clerk Esqr., Exe: Engineer Bellary Division, No. 1034 dated 11th February 1899 to the Superintending Engineer, III Circle, Bellary.

With reference to your No. 561, dated 7th Instant, on Memo No. 737C, of the 2nd Idem, I have the honour to report that the Tank Restoration Party joined this Division in March 1897 but only commenced operation in November 1897 immediately Famine works were closed. The first sanctioned estimates were received on 19th August 1898 and will continue to be received for some time. The party has been temporarily transferred to Chingleput Division owing to plague at Hindupur, but I believe it will be sent back again. In the meantime sanctioned estimates will continue to come in although the actual investigation is temporarily suspended. It is impossible for me to say how long the Party is likely to continue its investigation in this District as I have not been consulted. I would suggest a reference to the Chief Engineer, T.R.S. on the subject. The only reference to Minor Irrigation in my letter applying for extra Establishment is to those estimated for by the T.R.S. Party. It is hardly necessary for me to quote the order under which such works are carried out by this Department.

I have already asked for a list of works

estimated

estimated for by the T. R. S. Party upto date and will forward it when received. I do not think it necessary however to delay this reply till then.

With reference to para 2 of Chief Engineer's Memo I cannot give more full explanation for the necessity of the Extra Establishment than that afforded in this Office No. $\frac{5053}{5-7-98}$ and $\frac{9087}{12-12-98}$ with which the application was originally sent.

(Sd) H. E. Clerk
Executive Engineer,
Bellary *Division.*
12-12-98.

Lt Col RE
Supdg Engineer
III Circle

Dated the 3 Jany 1899.

Letter from the Executive Engineer, Bellary Division, No. 9037 dated 12th December 1898 to the Superintending Engineer, III Circle.

Enclosure 1. statement.

With reference to your Memo No. 1184 dated 8th July 1898, in replying to which I regret the delay, I have the honour to point out that your proposal to raise the status of this Division to that of a first class would afford no relief numerically as I will then have the same number of clerks, except that one of the clerks on 20-30 will be replaced by one on 40-50.

2. I do not also understand how you make out that one more temporary clerk alone will suffice for the requirements of my Office - I may point out that S.R.S. works are mostly minor works of Revenue Department, which, in the ordinary condition of things, we are not expected to undertake, when we do undertake them, it is but fair that my staff should be increased proportionately to cope with the extra strain.

The following statistics, which I have collected, will convince you that there has been rapid expansion of work in the Division of late and that unless my establishment is increased proportionately work will inevitably fall into hopeless arrears.

3. With reference to your enquiry whether ferroprussiate process of copying plans cannot be introduced to minimize work, I may observe that

only

only in cases where many copies of estimates and plans are required this process will be useful and economical of time and labour. As a matter of fact not more than one copy of estimate and plan is made, and it is not, therefore, worthwhile attempting this process which would only throw extra work in the matter of fitting up appliances & redrawing plans.— With each T. R. I. estimate number of sheets of levels &c. are received and I would, on reconsideration, request to be allowed a temporary tracer on Rs 15 instead of a temporary clerk on Rs 20 originally proposed.

4. In the concluding portion of your memo under reference you observe that the Accounts Clerk should be entered under present scale. I beg, to point out that the temporary accounts clerk, temporary draftsman and temporary record clerk have been sanctioned for specific short periods and if any comparison of the present and proposed staff should be made at all, it should be between the Normal and proposed. The temporary establishment now applied for will be general temporary in the sense that it will be kept on so long as T. R. I. works are in progress in this Division.

5. Summarising, my proposals amount to:—

1 Temporary Clerk on Rs 20 for accounts section
1 — do — for correspondence — do —
1 — do — Tracer on Rs 15 for Drawing — do —

and I request you will see your way to recommending them for sanction of Government. A proposition statement is submitted accordingly.

6. The requirements of the Anantapur Sub Divn will be taken up by separate correspondence.

1893-94 Number of letters received 4512 for 260 working days, or an average of 17.4 daily

Sir,

I have the honour to submit herewith a copy of letter No. 9037 dated 12th December 1898 from the Officer in charge of Bellary Division and to request that in the circumstances explained by the Executive Engineer the temporary establishment asked for may be sanctioned for two months viz January and February 1899. A further application will be made if it is found necessary to extend their time.

2. As the extra establishment now applied for is urgently required I request that you will be good enough to communicate the sanction by wire.

I have the honour to be,

I temporary draftsman on Rs: 30/- per mensem for 1898-99 vide G.O.Nos: 1328 W dated 25th: May 1898 and 1665 W dated 4th: July 1898

I Sweeper and I waterman for -- Division office at Rs: 2/- each per mensem see G.O. No. 1328 W dated 25th: May 1898.

The Executive Engineer Bellary Division explains that as the above temporary - Establishment has been sanctioned only for specific short periods, they have been omitted from the present proposal statement which compares the proposed with the normal establishment. The Executive Engineer has applied for two temporary clerks on Rs: 20/- and - one tracer on Rs:15/- per mensem almost it -- may be said, as a permanent arrangement.

3. The Superintending Engineer's letter to Chief Engineer P.W.Department No.22 W dated 3rd: January 1899 does - not deal with the necessity for this quasi-permanent Establishment and he has asked for the temporary Establishment for only a period of 2 months, -- promising further application if --
