by Gort., & Mr Smyth thinks that considering the general advantage to Gort. of having all channels, however small, properly sluiced, the pipes should be supplied at cost price without estab. charges.

As the Supty. Ingr., VI Circle, & the Chief Ingr. for Brigation both support the proposal, it is recommended that the sanction of Gort. be accorded to it.

I have the honor to request sanction to supply ryots with earthen ware pipes at cost price as delivered in Madurai adding two per cent for breakage.

These pipes are for use in field channels not maintained by Govt, and I think, considering the general advantage to Govt. of having all channels, however small properly shined, should be taken into account and the pipes supplied without any charge for establishment being made.
