Note by the Chief Engineer for Irrigation.

The Superintending Engineer, II Circle, applies for sanction to an excess of Rs. 6,260 incurred on the item "land compensation for Allur main drain and affluents" for which Rs. 5,600 were provided in the schedule of incomplete works of the Sangam anicut system, amounting to Rs. 45,605, sanctioned by the Government of India in its letter No. 270, dated 5th November 1895, communicated with G.O., No. 1027 I., dated 26th November 1895. The excess is chiefly due to a large extent of land taken up in Siddhavarapoliem shrotriem having been considered to be dry land by the Public Works Department officers and valued accordingly in the original estimate, whereas the Revenue Department subsequently found it to be wet land for which an increased rate of compensation had to be paid. In this office memo. No. 10 G., dated 7th May 1897, and in G.O. No. 264 W., dated 27th January 1899, Superintending Engineers have already been instructed that all questions regarding the amounts to be allowed in estimates for land compensation should be definitely settled in writing with the Revenue Department before estimates are submitted for sanction.

2. The excess may be approved.

Chief Engineer for Irrigation.

8th April 1899.

ORDER—No. 393 I., dated 1st May 1899.

The excess of Rs. 6,260 is approved.

2. Ordered that a copy of these Proceedings be forwarded to the Government of India with a request that, under paragraph 35 V (*c*), Chapter V, Volume II, Public Works Department Code, sanction to the excess may be communicated at an early date.

Explanation for differences to accompany Completion report for land compensation for Aller main drain & its affluents.

The original estimate appears to have been framed on imperfect data and in consequence adequate provision not made therein for all lands required to be taken up & paid for. The chief cause of excess is due to a large extent of land taken up in Siddamara-poliem Shotriem which, in the opinion of this departt was considered to be dryland but was subsequently proved to be wet lands in the revenue departt in consequence of which as large a sum as Rs 10071-12-5 has to be paid for them at wet rates.

A revised statement showing the details of land taken up and

CHIEF ENGINEER FOR IRRIGATION 18 MAR. 1899 No. 2/232

paid for is enclosed

The delay in settlement of Compensation is due to lands in exchange having been proposed in lieu of money compensation which in some cases fell through and to law suits pending in the court in respect of certain claims.
