READ—the following paper:—

From G. D. WYBROW, Esq., Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Dowlaishweram, 29th March 1892, No. 5 G.D.

I have the honour to bring to your notice that for several years past the Public Works Department lands at Dumagudem in Godávari Eastern division, referred to in the enclosed statement, have been leased out annually by this department for cultivation and the same course was adopted for 1891–92.

2. The lands in question not having been cultivated during 1891–92 by the ryots owing to want of rains, the Executive Engineer, Eastern division, applied for for the assessment (Rs. 36–14–10) on those lands being written off the accounts and it was accordingly sanctioned by me.

3. The Examiner, Public Works Accounts, has asked in his letter No. 72 S.E., * dated the 15th February 1892, whether the sanction of Government should not be obtained for the remission, there being no rule apparently under which the same can be remitted.

* Copy enclosed.

I, therefore, request that you will be so good as to obtain the requisite sanction of Government, if necessary, to the assessment (Rs. 36–14–10) being written off the statement of collections of land assessment under the reasons explained.

4. I take this opportunity of asking you whether the lands in question may be temporarily made over to the Revenue Department to be let out on yearly leases with power to resume on due notice being given.
