No. 102 I.

Note by the Chief Engineer for Irrigation.

The undersigned having been informed that the Government of India will be able to increase the grants under "49. Capital Expenditure not charged to Revenue" provided in the final issue of the budget estimates for the current year, the Superintending Engineers were requested to report their requirements. The Superintending Engineer, VI Circle, states that an additional grant of Rs. 40,000 is required for the Periyár project for expenditure mostly on sanctioned works. The Superintending Engineer, V Circle, reports that no additional funds will be required for the Cauvery delta system. As it is expected that a number of estimates connected with the system will be shortly sanctioned, an additional grant of Rs. 60,000 could probably be utilized. Most of it would be spent on iron work if necessary. It is, therefore, recommended that the Government of India may be requested to sanction an additional grant of Rs. 1,23,000 including the percentage charge for establishment, as shown in the margin.

	Rs.	Rs.
Periyár project—		
Works	40,000	
Establishment	9,200	
		49,200
Cauvery delta system—		
Works	60,000	
Establishment	13,800	
		73,800
Total ...		1,23,000

2. The usual application is appended.

3. An application for a grant of Rs. 30,000 required for the Nellore channel work and referred to in the telegram to the Government of India dated 1st May 1899 will be submitted when the orders of that Government on the telegram referred to are communicated. Additional grants for other systems are not required.

25th May 1899.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

Enclosure.

Statement to accompany application for an additional grant of Rs. 1,23,000 under "49. Capital Expenditure not charged to Revenue" for the Cauvery Delta System, and the Periyár Project, during 1899–1900.

Amount of expenditure in the year for which sanction is asked.	Major and Minor heads under which expenditure will fall with the amounts of sanctioned grants under each.	Probable expenditure in the whole year under the grants mentioned in column 2 if the expenditure in column 1 is sanctioned.	Major and Minor heads under which it is proposed to reduce the grants with the sanctioned grants under each.	Probable expenditure in the year under the heads mentioned in column 4.	Amounts by which it is proposed to reduce the grants under the heads mentioned in column 4.	Explanation if no reappropriation is considered possible, in such cases, the urgency and necessity for the outlay must also be explained.

17 APR. 1899
No. 10 VI

SIR,

ENCLOSURES. 2.

With reference to your Memorandum No: 4 - VI dated 7th April 1899, and para 11 of the Note printed with G.O. No: 195 - I dated 23rd February 1899, I have the honour to forward herewith a schedule showing the distribution by component works of the grant for the Periyar Project works under Capital Expenditure not charged to Revenue - 49 Irrigation - for 1899-1900. This schedule shows the proposed outlay of Rs 1,00,000, that is Rs 60,000 provided in the preliminary issue of the Budget Estimate for the current official year and Rs 40,000 promised in your Memorandum above referred to.

2. A regular Register should be kept in the Register of the Station Accounts in the Executive Engineer's office for the receipt of Stores and the Storekeeper should be required to submit a Return every Fortnight showing the receipts and issues.

From The Secy Engineer & Conte.

Order

The attention of the S.E. is drawn to the Rs statement that the Irrigation Budget was received very late every year — As the distribution by Systems of the provisional assignment sanctioned by the Govt of India (Rs 260000 Communicated in G.O. No 129 issued 4.1.99 to the S.E. on 5th Jan. 1899 it can scarcely be said that as far as the Office was concerned there was delay in supplying the information necessary for arrangements for putting under in hand.

17.4.99 WH

"As it is reported that a number of Est. will be shortly sanctioned the proposal in course of Abstract should be accepted — that portion ~~of~~ which cannot be spent in one year if necessary a allotment ~~limited for half the~~, not 1¼ lacs. Required under 49".

CHIEF ENGINEER FOR IRRIGATION
13 APR 1899
337 T.J.

SIR,

Enclosures.

With reference to your memo No. V/337 T.J. dated 7th April 1899 and Circular No 46 dated 29th March 1899, I have the honour to forward herewith copy of letter No 1706 dated 6th Idem from the Executive Engineer, Tanjore, from which it will be seen that additional grants are not wanted under 49 Capital Expenditure not charged against Revenue.

I have the honour to be
Sir,
your most obedt. Servant

J.G. Paul 11/4/99
offg. Supdg. Engineer 5 Circle.

720—14-4-98.

10.4.99

Letter from H. H. O'Connell Esquire, Executive Engineer, Tanjore Division, to the Supg. Engineer, 5th circle, No 1706 dated 6 April 1899:—

With reference to your No. 831 J. of 30 March 1899 I have the honour to state that I do not require at present any additional grant under 4q Capital works.

2. The Budgetted demand of this division for 1899-1900 has already been increased from Rs 144,400 to Rs 174,400. All the works in this Division under 4q Capital have been put in execution except

"Conversion of the Cauvery-Kodamurty open dam into a closed regulator-Estn: Rs 100,000"

and this has been sent to Government of India for sanction. Any outlay on this, if put in hand during the course of this year, will be the outlay by P.W. Workshops for iron and other articles that may be obtained from England.

3. The Irrigation Budget was received very late this year, and if it had been received earlier, arrangements could have been made for collection of materials and a larger amount spent on work. The working season is very short-generally about 3½ to 4 months, and it is necessary to get all materials ready before hand if any large amount of

Not increased in this office. The S.E applied for Rs 174,400-

13 APR 1899
