It has been decided
to decrease the Establishment
employed in Tank Restoration
Scheme. investigation, considerably
next year and to employ the
amount thus, available on
an increased grant for execution.
Having regard to this and to
the demand now frequently made
for Executive Engineers for extra

Establishment to carry out Tank
Restoration Scheme work it is
considered advisable that a
considerable increase should
be made to the temporary
establishment.

It is requested therefore
that 8 extra temporary overseers
may be employed from the
commencement of next official
year to be employed in the
Divisions where there are
greatest accumulations of
sanctioned estimate.

This is in ^{addition} to
the demand for 5 temporary
overseers made in this office
