The Secretary to the Governor in Council
Fort St. George,
Madras.

Respected Sir,

The undersigned most humbly begs to inform these few lines to your honour, hoping that these prayers will be kindly upheld and the reports taken for due Considerations:

In days long gone by, works of various descriptions were executed by our Ancestors, with impartial justice, and those helpmates whom they engaged were well paid in due time, just as it is expected now-a-days, and the works left after by such workmen, are taken a sample for long standing ones. Whereas, if the Govt. or the Company execute such works without paying the hard-working helpmates (Coolies) the cry of such helpmates from starvation, would — we are afraid of punning — doubtless reduce the works to ruins, in course of days, and would not a little be a loss of standing side by side with the works of above description.

II. It is usually the case in all Industrial Septs, such as, D. W. P., Coal and Sand Septs, Laboratories, Factories, Cotton and other Manufactories, M. S. Company, Harbour Works, to pay their hardworking Cooks every week or at least every month at their requests.

III. The South Indian Railway works were started in North Arcot early in the year 1888. One Executive Engineer, F. G. Brook-Fox Esq., is appointed to manage the Railway works. He neither pays the Coolies weekly nor monthly. The Coolies who are at work in such hot days, suffer from starvation, and when paid they are paid a week's wage for that of a month's. Would their starvation and wages in arrears produce any profit to the Government? It is divinely charitable, if, instead of forcing or at least killing the Coolies like ourselves, the Exce. Engineer, Sub-Engineers and other officials be paid Quarterly with a month's payment. This will show a great surplus to the Govt.

IV The poor suffer and starve and the fellow creatures enjoy and are surfeited.
Would to God that the poor be left helpless, even when work for their
maintenance, while once He hath ordained Adam to live with
with what he earned by the sweat of his brow? This seems quite
against the design of the Lord.

Wherefore, we, poor helpless Colliers,
most humbly request your paternal generosity, to kindly design allevi-
ate our sufferings and pass an order to Mr. J. Logan, Chief.

Engineer, that our wages may be paid every week
& thus rescue us from the influence of South Indian ~~Thamias~~ ^{Thamias}

North Arcot,
4th April 1890.

South Indian Railway,
AGENT'S OFFICE,

TRICHINOPOLY, 4th May 1890

From

The AGENT,
SOUTH INDIAN RAILWAY,

To

The CONSULTING ENGINEER FOR RAILWAYS,
MADRAS.

Sir,

In returning herewith the petition which accompanied your letter No 444 of the 25th ultimo, I have to submit for the information of Govt. the following copy of a report which I have received from the Chief Engineer.

"I find that although professing to pay his
"day Coolies only one week in arrears, and
"his platelaying Coolies monthly, there has,
"in my opinion, been undue delay in
"settling up some of the Muster Rolls in
"Mr. Brook's District. His explanation
"of this is not altogether satisfactory,
"although Mr. Brook has had difficulties
"to contend with in connection with the
"inefficiency of Inspectors &c. He has
"however made fresh arrangements to insure
"greater promptness in payments and
"I have requested the Dy. Chief Engineer
"whose head quarters are at Vellore
"to give his special attention to seeing
"that no unnecessary delay in
"payments

"is permitted in future."

I am
Sir

Your most obedt Servant

William Roberts
