SIR,

With reference to Public Works Department Circular No. 9 Railway, dated the 31st October 1889, I have the honour to inform you that the Director General of Stores at the India Office suggests that, in addition to the information referred to in his letter No. 2092S., dated India Office, the 20th September 1889, which was promulgated with the Circular quoted above, the outside diameter of ends of couplings should also be stated in the case of hose ordered without couplings, in order to ensure the ends of the hose being large enough to take the couplings which it is required to fit.

I have the honour to be,

SIR,

Your most obedient Servant,

Conway-Gordon

Director General of Railways.
