PUBLIC WORKS DEPARTMENT,

Read the following:—

Letter from Engineer in Chief
East Coast Survey 1854 dated
17
18th June 1890

FOR ORDERS.

In a case of rapid work
such as survey or construction
I am of opinion that a great
many men having a fair
knowledge of that class of work
are available who have not
passed the necessary tests, and
it is also probable that a great
many of the men employed
are from Northern India
where I believe these tests are
not in vogue.

If men present themselves,
some of whom have passed &
others not, I think preference
should always be given to those
who have.

For open line work & routine
work of any sort I think the
educational tests should
be enforced.
