To

THE DIRECTOR GENERAL OF RAILWAYS.

Simla, the 17th July 1890.

SIR,

With your memorandum No. 094S., dated the 7th March 1890, you submitted for the information of the Government of India an extract from Eastern Bengal State Railway Indent No. 5 of 1890 for 50lb. rails and fastenings, which are required for renewals on the Northern Section, and you recommended that the sanction of the Government of India be accorded to rails of the section in question being obtained from England.

2. The Government of India has carefully considered the question of the section of rail with which renewals should be made, not only in this particular instance but generally, and is now pleased to rule that metre gauge lines which maintain a traffic averaging more than three trains daily in each direction may be permitted to carry out renewals with rails of the 50 lb. section at the discretion of the line authorities; you should, however, bring to the notice of the Government of India any cases in which you find that indents are being transmitted to England for rails of this description for renewals on lines which carry a traffic which does not come within the limits now fixed by Government for renewing with the heavier section.

I have the honour to be,

SIR,

Your most obedient Servant,

R. C. B. PEMBERTON, Colonel, R.E.,
Secy. to the Govt. of India.

Documents accompanying.
Nil.
