D. P. W.

NORTH ARCOT, DIVISION OFFICE,

Camp ~~17~~ 17 November 1884

From

THE EXECUTIVE ENGINEER,

North Arcot Division,

To

The Superintending Engineer to Civil
Coimbatore

SIR,

Enclosure

Referring to the Examiner's letter No. 283
SE of 28 ultimo bearing your endorsement
No. 430 of 6th Instant calling for explanation
of the cause of delay of over 7 months in the
submission of Pension application of V. Anna-
samy Mudar, I have the honor to inform you
that the Verification of the applicants' service
had to be completed in communication with the
Controller of Military Accounts and the Examiner
of P. W. Accounts. The requisition to the Controller
of Military accounts for Verification of a portion
of the service of the applicant was made at
first, but that to the Examiner of P. W. Accounts
had to be delayed till it could be ascertained
in this office, for what periods of service Verifica-
tion the records in my office were not forth-
coming. Under the circumstances the requisition

was

3
was made to the Examiner of P.W. accounts in
the middle of April, and a reply was received
on the 8th May 1884. Thereupon, an affidavit,
for the portion of service that was not cap-
able of verification even by the Examiner's office,
was called for from the applicant, & this was
received in my office, together with the required
contemporary statement, on the 30th June 1884.
It may be observed from the application
that the applicant was reduced on 2 different
occasions, and was dismissed also, from
the service. The cause for dismissal & for
reduction had subsequently to be further
ascertained from records; but amidst other
work, this office was not able to get all
this information, as easily as might have been
wished, as the records related to such dis-
tant period, & none of the members in my
office (all being new to the Division) could
possibly be expected to possess a knowledge
of these old records, hence the delay of a little
over 2 months noticed by the Examiner.

I have the honor to be

Sir,

Your most obedient servant

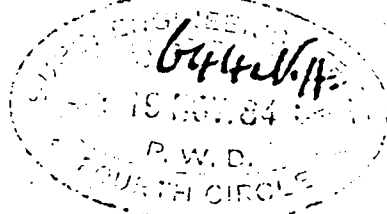

J. R. P. 3

Executive Engineer
