Letter from the Assistant Engineer, in charge of Head Quarters Sub Division, to the Exe: Engineer, Kistna Northern Division, No. 1271, dated 16-12-95.

I have the honour to inform you that Quarry Cooly Baiha Appada was killed by the accidental slip of a boulder which rolled over him in the Mogulrajapuram on the 11th. Another Cooly by name Nalatha Appada was slightly hurt in the toe. The matter was reported to the Local Sub Magistrate the same day.

No. 514 S.E.

Forwarded to the Superintending Engineer, [illegible] Circle.

I visited the scene of the accident shortly after the occurrence.

The Condition of the rocks at the time of my inspection was somewhat dangerous, but the face from which the slip Commenced was clean, and there and there is no reason to believe that the appearance of the place was dangerous before the Slip occurred.

The rocks and boulders being dislodged by the Slip, it is not possible to make a definite report on the appearance of the place before the accident.

I am of opinion that the Quarry Superintendent is in no way to blame.
