CERTIFIED that I have carefully examined *Ruttan Mood* Son of

A. Viswanathun Mood, 1st Class Vaccinator of Karpunathally Range.

His age is according to his own statement *43* years and by appearance about *50 (Fifty)* years I consider *Ruttan Mood* to be completely and permanently incapacitated for further service of any kind in consequence of *Nervous weakness*

His incapacity does not appear to me to have been caused by irregular or intemperate habits.

Detailed Statement.

He States 43 years old but appearance older, complains of his hand shaking and he is nervous and consequent inability to vaccinate. In consequence of the above symptoms I recommended that he be invalided and I do not see any prospect of his being fit for further service.

Resolution No. 9.

Read letter from the Deputy Inspector of Vaccination
on the short work of Vaccinator Ruthmann Muddaly and papers
relating to his suspension.

The work turned out in November shows that the short work previously done was the result of negligence and that the Vaccinator's plea that he has already been punished for short work in July, August, and September is not borne out by the facts. They will however give the Vaccinator another chance on the expiration of the Sentence of one and a half months' Suspension now awarded, if he again falls short in his work he will be

Dismissed
