2. Name. Joseph Thomas Coombes
3. Department or Office. Public, Chief secretariat
4. Marks of identification. Scar on the thumb of the left hand
5. Age. 52 years
6. Service. 31 years, 10 months & 14 days
7. Sick leave granted during the service. nil
8. Disease or cause of disability. Heart. Degeneration-a.
9. Abstract statement of case showing how the disease or disability was contracted, the results of the treatment adopted. In case the disease or disability is believed to have been caused by irregular or intemperate habits, the reasons for such belief should be stated.

Appearance. Prematurely old & broken down. Fairly nourished but has lost flesh considerably of late. Eye sight considerably impaired & vision failing. Complains of persistent pain in vertex, of a dull aching character, & suffers much from insomnia. Of late motion & sensation in the left upper extremity have become impaired.

The cardiac apex beat or impulse ~~are~~ is very feeble, & the hearts action is very feeble & rapid; the pulse is deficient in force & volume.

The appetite is much impaired; tongue foul; digestion bad.

The patient has been running down in health, through overwork, for the past ten years, & for the latter half of that time, he has been subject to syncopal attacks coming on suddenly & lasting for an hour or two.

He has availed of furlough, which expired only recently, but on returning to duty he at once experienced the premonitions of a similar attack & so was forced to give up work. I am of opinion that he will never become fit for further service and should therefore be invalided.
