to be sufficient grounds to justify exceptional treatment.

The Examiner, however, says that should Government be pleased to view the case favorably, the applicant may be given the benefit of art. 465 A(1) of the C.S.R. and granted a pension of Rs.22-1-11 after condoning the deficiency of 24 days in the applicant's service required to complete 11 years service. This concession may, it is submitted, be given.

The Examiner also says that the Govt. can condone a deficiency of 12 months under article 465 A(2) of the C.S.R. out of the applicant's non-qualifying temporary service of 4 years 6 odd, and that if this be done his qualifying service in superior grades will amount to 11 years 11 months and 6 days entitling to the pension of Rs.22-1-11 as already stated and that any further concession will require the sanction of the Secretary of State.

General Remarks

1. The cause of the applicant's inefficiency is given in Chief Engineer's (Genl Q) ~~Lr~~ Memo No 1677 & dated 14th October 1897

2. Is the applicant's qualifying service began from 1st March 1887 (i.e. after 20 January 1871 & after he had attained the age of 30 years) the amount of pension, viz Rs 31-10-0, admissible to him has been reduced to Rs 19-12-3 vide reference to C.S.R. Article 521(a), vide Memo shewing calculation of average emoluments & pension admissible

3. In his appeal dated 5th Dec 95 para 9 the applicant prays that his services from 1880 or if this cannot be done from July 1882 or from 1st January 1883 to 28th February 1887 may be treated as qualifying for pension. It is provided under that in G.O No 3435 W dated 27th December 1882 paragraph 12 relating to certain employes of the Madras Irrigation & Canal Company Mr Harris was ordered to be brought on the temporary establishment "for the present" but to be permanently posted when vacancies occur. Under these orders Mr Harris was appointed as Temporary Supervisor 2nd grade from 1st January 1883, but did not receive his permanent appointment to the Department until 1st March 1887 - The applicant's services from 1st July 1882 to 31st March 1882 2 months, under the Madras Irrigation & Canal Company, do not qualify for pension - His services from 1st January 1883 to 28th February 1887 also do not qualify for pension, being temporary, vide C.S.R 384.

4. Should Government however be pleased to take a favourable view of the case, then as per C.S.R Article 465 A(1) Comb (a) page 254 days in the applicant's service (10 years 11 months & 6 days) which will make his qualifying service equal to 11 years;

through proper channels, but which for one accident or miscarriage had not reached its destination.

That on my presenting a duplicate copy in person to Colonel Penny quick in December he was pleased to refer to some books and said it is evidently a mistake, and on receipt of the original it would be rectified.

That in 1896 (April to June) my appeal (duplicate) was referred to the Superintending Engineer 1st Circle by your office to report what became of the original, and instead of calling on me for the information it was returned with some reply.

I now most earnestly solicit your kind Consideration to my case, and to grant me the benefit of Services prayed for in para 9 of my appeal to Court for pension, as there was not a single break from 1st January 1883 to date.

I beg to remain

Sir

Your most obedient Servant

Memo

Acting Head Surveyor Harris is permitted to resign his post from the 1st. January, his health not enabling him to stand the work.

2. This is to certify that the bearer Richard Harris has been in my employ for 14 months, for twelve months of which he was employed in the Office. He is anxious to find work, if possible in the D. P. W. and from what I know of him, I should think he would get on well in that Department.

Bimlipatam, 10th. July 1863. } (Sd) CHAS. MINCHIN.

---

3. Certified that Mr. R. Harris has been in the service of the E. I. I. and C. Company, Orissa, for a period of nine or ten months, during which time he manifested much zeal in the discharge of his duties, his pay was increased from Rs 50 to Rs 60 per month.

R. Harris— I send you a letter to Colonel Rundell

and I hope you will succeed in obtaining the situation you are trying for.

(*Sd*) W. H. HARRIS.

5. Mr. Richard Harris has been in charge of the Narago Anicut works under me as Overseer for a period of ten months; during which time I have much pleasure in stating that he has given me full satisfaction; he is indeed a very hard-working young man, as also intelligent, obedient, sober, and very attentive to works entrusted to him. I have at all times found him most willing and trustworthy; he leaves me now owing to the reduction of the Establishment. And I must say that I am truly sorry to part with his services, he being well acquainted with the general run of Works, I shall be most happy to take him on again when opportunity offers.

Sub Engineer, Poorce Division,
E. I. I. & Canal Company.

---

6. Mr. Harris was an Inspector in the service of the Relief Committee from September 1866 to April 1867 and as such served under me.

He has on the whole given me satisfaction; he would do well to correct himself of a tendency to inaccuracy that he is perhaps unconsciously given to, this was the only fault as far as I am aware that I had ever to find with him. He is honest and hardworking; and left me on his own accord.

9. From Colonel J. F FISHER

To The Secretary to Government, P. W. Department.

I take this opportunity of bringing to the notice of Government for its most favourable consideration the claims of another valuable servant of Government — Captain Hasted who has scarcely been a year in charge of the No.1 Rango, Godavery, having a high opinion of Mr. Harris, the Overseer in charge of the Anicuts, Quarries, and several miles of embankments, recommends him for promotion; but I beg to state that I have known Mr. Harris for upwards of two years, and from personal observation can testify to his qualifications general usefulness and the zealous manner in which he discharged his duties. Although a subordinate, he has been placed in charge of all the works entrusted to the late Sub. Engineer Veerana Garu, Rai Bahadoor, and from his having given general satisfaction to all his superiors, I consider him well worthy of advancement to the grade of supervisor. Moreover I fully concur with Captain Hasted in considering the subordinate in charge of the Anicuts, Quarries &c. should be a supervisor of the 2nd Grade, and as a favourable opportunity offers itself now, I beg that Mr. Harris's claims may not be looked over.

10. Mr. Harris was Overseer under me in charge of Dowlaishwaram head works.—He works hard, and does very good executive work.

12. Mr. Overseer Harris has been employed under me for five years in the D. P. W. and has made himself very useful. He is well up in the work of this place, particularly the Anicuts and Quarries. I have strongly recommended him for promotion, and trust he may soon get it.

13. No. 159.

To The District Engineer,
GODAVERY.

Sir, I have the honor to forward for your favourable consideration a letter from Mr. Overseer Harris in which he brings forward his claims for promotion, which I can fully recognise, and from what I have seen of his work and the energy he displays in the prosecution of it, I feel that I can recommend him unreservedly for the promotion which he seeks.

I enclose a record of the expenditure upon the Godavery Anicut for the last fourteen years, from which it will be

seen that since Mr. Harris took charge of the Head works in 1867-68 he has been able to keep the anicut in good repair, and put to the condition it always was in previous years upon an annual expenditure less by Rupees Eight thousand five hundred, than what used to be incurred by his predecessor.

I have also to bring to your notice his conduct on the occasion of the last dangerous slip in the apron of the Mud-door anicut at a time when none of his superior officers were at Head Quarters and it was by his rapid action then that further danger was averted.

6th July 1874. (Sd.) R. R. E. BROCKMAN Capt R. E.,
Ex. Engineer.

14. Captain Brockman's Testimonial on record in Godavery District Executive Engineer's Office.

15. Mr. H. Harris served under me as Overseer during the time I was in charge of the Head Works at Dowlaishwaram about two years. He can do very good work, manage his coolies very well, and is a very good Overseer.

September 1874. (Sd.) J. W. MARTIN,

I have the honor to bring to your notice that owing

during the course of the work.

In spite of many break downs and unforeseen difficulties he has completed the work satisfactorily.

In the early part of the year he suffered severely with fever from the constant exposure in the river bed; he has never flinched but worked on steadily through it all.

Mr. Harris has done credit to the school in which he has been educated and rose to responsible trust- I mean the Godavery school of Engineering, which in many respects was at the time the first in India. He gets his work done economically and understands the management of Canals and distribution.

25. Mr. Harris has been employed under me since 1880. He has done good work always— especially in the repairs to the Hindry Aqueduct when he worked very energetically at the difficult kinds of work to be done and which he finished to the complete satisfaction of all concerned. He has also finished the repair to the Sankasala anicut breach both rapidly and well.

I trust he will be taken on permanently by Government soon.

Kurnool, 1-5-1883. C. H. Wilks,
Ex. Engineer, K. C. Dl.

Extract from Capt. Smarts recommendation in half yearly roll for 1883.

Mr. Harris knows the greater part of the canal t

permanent strength of the department as a Supervisor 1st grade. He has a considerable amount of experience.

28. Mr. R. Harris, Supervisor D. P. W. worked under me from January to Novr. 1889, when I was in charge of the Pottanghi, Koraput road.

He stands the climate well, and I always found him ready and willing to work, and he did his work to my satisfaction.

Dowlaishwaram, Godavery 2-5-90 (Sd) JOHN INGLES *asstt. Engineer.*

Extract from a letter of J. Traill Esqr. Ex. Engineer to the Superintending Engineer, 1 Circle.

Mr. Harris (Supervisor) was in charge of the Northern half of the road and of all the buildings at Koraput. He had great command of hill labour and masons, but his buildings were at a stands till for want of carpenters which he failed to procure. He took great interest in his work, and he stuck to it as long as he could, fighting manfully against fever and rheumatism. He had to come down to the plains with a bad attack of pneumonia in July last, and the District Surgeon certifies that he should not go back.

The Honorable J. Pennyquick. R.E. C.S.I.
Chief Engineer & Secretary to Govt.

Through the Executive Engineer
Vizagapatam District

Sir,

I beg respectfully to make the following representation.

2. In the year 1880, I joined the Madras Irrigation & Canal Company at Kurnool and, as will be seen from the Copies of Testimonials Nos. 21-22-23 & 25 - Contained in Enclosure marked A. I discharged my duties to the entire satisfaction of my Superior Officers.

3. On the 5th of December 1882, I was offered the appointment of 2nd Grade Supervisor in the Canal division, with effect from the 1st January 1883 - Vide Enclosure

4. I now respectfully invite attention to Enclosure Marked C. from which it will be clearly seen, that it was the intention of Government to bring my name on the permanent establishment so soon as a Vacancy occurred.

5. A reference to the Establishment List for the years 1883 to 1887 will show, that many Vacancies did occur, and were filled up, Overlooking me month after month & year after year, notwithstanding the reminders and representations I made on the subject through my Superior Officers - and, as a matter of fact, I was not brought on to the permanent Establishment until the 1st March 1887.

6. It may perhaps be thought that I was passed over owing to some fault or inefficiency - That I had a clean and creditable record between 83 & 87. is I submit sufficiently proved by my Testimonials for those years, and by the significant fact that I was during that period promoted for good work.

7. Under the circumstances, I am forced to the conclusion that I was inadvertently passed over, owing to some mistake or misapprehension somewhere, and not for any fault or error.

Made 9 Mar 1887
3435 W 71 Rec'd 22

8. When Government took over the Canal from the M. I & C. Co. no Bonus or Gratuity was granted to those Subordinates whose services were retained by Government, because it was understood that in their cases, their service in the M. I & C. Co would count towards pension, And if I am rightly informed, service was so allowed to count in some cases. for instance in the case of the late Mr. Maddox.

9. My respectful prayer therefore is - That Government may be moved to pass orders allowing my service from 1880. to count for pension. Or if this cannot be done to let the service count from July 1882. or from 1st January 1883.

10. Were I a younger man it would not so much matter, but to a man of my age, it will be readily understood that the loss of many years of pensionable service is one most serious.

11. In conclusion I venture to hope that you will, as the head of the department, carefully consider my case and if possible grant me the concession prayed for.

I remain
Sir
Your most Obedient Servt
Wm. J. Evans

Memorandum

Dated Ootacamund. the 16th October 1897.

Letter from the Superintending Engineer, I Circle. No 6355/2
dated 11th September 1897.

In October last both the Executive Engineer Viza-
gapatam Division and the Superintending Engineer, I Circle,
recommended that Mr. Superviser, R. E. A. Harris should
be retired on his attaining the age of 55 years in February
1898. The Chief Engineer however decided* that unless
Mr. Harris was willing to retire
of his own accord on Completing
his 55th year, a special report
on his efficiency should be

*Vide Memo: No. 4458 C. dated 26th November 1896.

Submitted in December next.

2. In the 'N. R' roll of Upper subordinate in the Vizagapatam Division for the Fasly year ending 30th June 1894, the Executive Engineer again urged the desirability of Calling upon Mr. Harris to take his pension when the time Came. No reasons having been assigned in Support of this suggestion, the Chief Engineer asked for further information which is now furnished by the Superintending Engineer with his letter quoted above. It appears from this report that Mr: Harris is not willing to retire under Article 508 of the C.S. Regulations, and that while the record of his past Service is creditable his work has of late been

...thing but satisfactory. He has not shown proper...
...tude in replying even to the simplest references from...
...Superiors. He has failed to exercise close super...
...sion in the case of several works under his charge,
...d the extent to which arrears in his Sub-Division
...ere allowed to accumulate on one occasion ~
...ecessitated their being worked off by the Executive
...gineer himself. The Chief Engineer considering
...ll this is to be attributed to Mr. Harris' physical
...incapacity is of opinion that he should not in the
...public interests, be permitted to remain in the ~
...Service after fifty three years of age. He will accord-
...ingly be relieved of his duty on the forenoon of the
...day following his fifty fifth birthday.
