STATEMENT OF CASE.

1. Rank. 1st class Constable No 275.
2. Name. Chinnalappa
3. Department or Office. Police Department.
4. Marks of identification. 1. Two marks on the right side of the neck, 2. A large circular scar on the outer and middle of the right thigh, 3. A long scar on the inner and upper part of right leg.
5. Age. 43 years
6. Service. 21 years and 6 months.
7. Sick leave granted during the service. nil
8. Disease or cause of disability. Rheumatism.

9. Abstract statement of case showing how the disease or disability was contracted, the results of the treatment adopted. In case the disease or disability is believed to have been caused by irregular or intemperate habits, the reasons for such belief should be stated.

This Constable presented himself before me this morning with letter No 268 dated 28.2.98 for examination as to his physical fitness for further service. He has been under observation at the Police Hospital since the 3rd instant and found to be suffering from chronic enlargement of the right knee joint. He states that he had high fever in 1895 attended with swelling and pain in all large joints for about a fortnight; the swelling subsided, but the pain continued for some time. Since then he has been suffering from pain off and on in both the knees whenever he went out a few days and on duty. He was under treatment for Rheumatism twice and Syphilis once in 1896. At present his right knee joint is enlarged and prevents him from carrying out his out door duties. His general health is below par and as he is not likely to derive benefit from treatment I consider him unfit for further active Police Service.

Disease has been contracted on general service and not the result of his own imprudence.
