9. Abstract statement of case showing how the disease or disability was contracted, the results of the treatment adopted. In case the disease or disability is believed to have been caused by irregular or intemperate habits, the reasons for such belief should be stated.

Came in to Hospital Complaining of inability
to raise his right arm and fix it in the position of salute.
Gives history, that about three months ago he had to practice
drill-exercise for about two months and that he was until
then in good health, one night after having drill in
the evening, he went home & after supper slept exposing
himself to draught & that in the morning he woke up
from bed found that his right arm was useless and that
he had to raise it with the help of the left arm. He felt
a little pain in the shoulder two days before the limb
became paralysed. The Deltoid muscle and also the
Biceps have undergone atrophy. To raise the arm
he flings back the limb and with a jerk puts it
to his temple to salute, then the limb drops down in a
second. He is not able to hold it in that position. Has
indifferent appetite, is thin & weak, pulse 132. respiration 27.
The lower extremities are not affected. - Treatment. Pot-Iodid gr 9
Linniment Iodine 3ss. for external use only.
was under treatment in the hospital from 9.6.28
has not improved. He is unable to raise the gun with right
arm - & do musket-drill. I therefore consider him unfit
for duty in the Police department.
