This man was granted two months leave from 16th July, 1898 as he was found suffering from chronic enteritis. History states that for the past year he has been losing flesh & suffering on & off with diarrhoea. A month before he was granted leave in June the diarrhoea became quite chronic & he used to have 15 to 20 scanty motions a day, at times he used to pass blood.

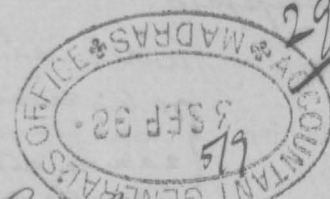

Present condition 20.8.98. The man is quite anaemic and emaciated. There is swelling & oedema of both legs and feet. Heart's action weak & pulse small. He can scarcely stand. As I am of opinion that he will not improve & he fit for further duty. I recommend him to be invalided.
