I have had over three years experience of M. Apperson. Now, the head draftsman of the Office of the Chief Eng. for Ligation, and have great pleasure in testifying to the excellent work he has done during that period. He is a first rate draftsman, and a very hard working and determined man. At times his work is much greater than he can well do, except by working out of the regular Office hours, but he has at all times kept his work well in hand by exerting himself to the utmost whenever there has been a period of work in the Office.
