From this service record & his testimonials it appears that this man has been in the regular employ of Government for the last 23 years consecutively the majority of which was in this department. He was also employed previous to this period but not consecutively his first appointment in this department being in 1856. He has had the misfortune to have been employed only temporarily during all these years though hopes of permanent employ were frequently held out to him but it was always his services as a surveyor & draftsman that were required. He is a good Surveyor

Enclosures 4. SIR,

1. I respectfully beg to approach your honor with the following representation in the hope that it will have full and favourable consideration.

Vide pages 1 & 2 of enclosure B. Vide pages 3, 4, 5 and 6 of enclosure B.

2. I beg to submit that I entered the Public Works Department as an apprentice having passed the necessary examination. From December 1855 to January 1872, I was employed as a temporary Surveyor, Draftsman &c., with breaks of service. As no service record was maintained for this period, my statement can only be verified from the testimonials given to me by some Officers under whom I served during this period.

Enclosure C. & A.

3. From the year 1872, I have been a regular Government servant with the exception of a few days in the years 1875, '76 and '79 and nearly 11 months in the official year 1890—91 as will be seen from the accompanying service record, an abstract of which has been made out for your honor's ready reference. The breaks of service are in almost all cases owing to reduction of the establishment and return of permanent incumbents. I also submit that I was in the permanent establishment for nearly 4 years, viz from May 1877 to July '83, 1899 but I had the misfortune to give it up owing to long leave, I was necessitated to apply for, having laboured under serious malarious fever. After this, hopes of permanent appointments were frequently held out to me in other Departments, but I was not allowed to take up any of them by my superiors on the score that it would be inconvenient to lose my services in the important survey and levelling works &c., on the Buckingham canal. I strove hard to push on the famine works of 1877 and '78 entrusted to my care most energetically & efficiently with no extra allowance or bonus. Had I been in the permanent establishment, some period would have been added to my pensionable service as laid down in Article 443 of C. S. Regulations. 9

4. Your honor will be pleased to observe from the annexed book of testimonials, an abstract of which also is made out for easy reference, that, I have been gaining the full approbation of my superiors by my hard and satisfactory work. The various testimonials given to me by different officers about my character and ability speak for themselves. In spite of all this approved service of nearly 25 years, I am sorry, I must retire at this advanced age of nearly 60 without even the smallest pension unless your honor will take pity on me and recommend me to the Government for grant of any small pension. When I represented my deplorable case to Mr. A. H. Morin my Sub-Divisional Officer, he closely examined my service record and kindly recommended me to the Executive Engineer for special consideration of my claims for pension; but I am sorry to say that that Officer said that I was not under Rules entitled to any pension. I am fully aware that I cannot claim anything of the kind but I only pray that considering my long and satisfactory service, your honor will be pleased to recommend me for some pension. Article 403 of C. S. Regulations says that pension not exceeding Rs. 10 a month can be allowed to a temporary employee if Government considers that he deserves any such special concession.

5. In conclusion, I crave that my poor case may be brought to the notice of the Government with a special recommendation for any small pension in consideration of my hard, honest and willing service of nearly 25 years in all. I beg to say that without any such help I shall be thrown back to the world penniless and breadless at this ripe age.

I beg to remain,
Sir,
Your most obedient servant,

services filed with his petition shows that ever since the commencement of his services he held either Acting or temporary Appointments, under the pension rules applicable to his case therefore he cannot count any portion of his service for pension.

4 Under Art 403. of C. S. R. however, it is open to Govt. to recommend Gurunatha Moodr. to the Govt. of India for a pension not exceeding Rs 10. per month. He has a good ~~the~~ record to show efficient and satisfactory performance of work, and I consider the case is one which should receive special treatment, He is now over 60. years of age and no medical certificate of incapacity is required in his case.

The Bearer Apprentice P. Gooroonadum Moodelly has been under my orders from second March up to this date, during which date, I have always had reason to be satisfied with him. He is an intelligent, active, hard-working young man, and such works as had been entrusted to his superintendence have been well done. During his services with me, his accounts have been correctly kept and I believe him to be thoroughly honest. His private character is unexceptionable.

This is to certify that P. Gooroonadum Moodelly was employed under my orders in the Sub-Division of the Nellore Range for a period of 3 months in surveying and levelling in connection with the proposed Local Fund Roads. I have much pleasure in testing his zeal and energy. He is a very hard working surveyor and tries his best to please. He possesses a very fair knowledge of the duties of a surveyor and his intelligent notes regarding the country through which the lines run and the various sites for materials, &c., for the formation of road have helped me a great deal in preparing the estimates. He is an exceedingly neat Draughtsman and gives his survey plans a capital finish as a man of general intelligence possessing a fair knowledge of engineering works. He is in my opinion justified for a Local Fund Overseership. He possesses a very good knowledge of English and accounts, and I shall be glad to hear of his success in the appointment he now seeks, *viz.* that of Local Fund Overseer or its equivalent in the regular department. I have found him very steady.

POLEMPALLI,
13th February 1896.

From his service record and his testimonials, it appears that this man has been in the regular employ of Government for the last 23 years consecutively, the majority of which was in this Department. He was also employed previously to this period, but not consecutively, his first appointment in this Department being in 1856. He has had the misfortune to have been employed only temporarily during all these years though hopes of permanent employ were frequently held out to him. But it was always his services as a Surveyor and Draftsman that were required. He is a good Surveyor and Draftsman and has received good testimonials as such and is also painstaking, willing and straight-forward. As he will shortly be retiring, it is hoped, his claims for a pension will be taken into consideration as his employment, for the past 23 years, has been practically permanent.
