He is intelligent, hard working & well up in his profession, and by his transfer from the Range I have been deprived of the services of a careful useful & trustworthy Assistant—

Mr Berlie served under me for nearly 3 years and now leaves this Dn on transfer to the Sungam Project. During the greater part of the time he was under me he was employed as a Sub Dnl Officer & gave me every satisfaction. He is, I think, a very respectable man, and, I always found him attentive & painstaking with his work. During the time he was employed in this District he designed and executed in a very creditable manner several rather large Irrigation works.

To, Mr. Berlie
Sub Engineer

When I was leaving the Sangam Project Division you asked me to give you a testimonial and I have much pleasure in testifying to the great assistance you gave me during the 3½ years I was in charge of the Project works. During a great part of the time you were in charge of the Special Establishment for revising the estimates, in addition to the Superintendence of several works in progress and I always found that you worked steadily and well.

(Signed) D. McNeil Campbell
Executive Engineer

5th March 1885

Privilege leave for 3 months from 12th October/85 to 11th January/86

I consider Mr Berlie theoretical knowledge decidedly above the average – He is accurate & careful in both construction & office work. Mr Berlie has done excellent work in laying out & designing main & minor cuts & in charge of the special sub Dn for revising the Project Estimates. His works show a general attention to detail.
