OFFICE OF SURGEON-GENERAL WITH GOVT. OF MADRAS 28 JUL. 1899

ACCOUNTANT GENERAL'S OFFICE MADRAS 1 AUG 1899

(Certificate for retirement on invalid pension or gratuity.)

Certified that I have carefully examined T. Rudroya Moodly

son of T. Sabapathy Moodly

a Clerk

in the Accountant Generals office

His age is by his own statement 49 years and by appearance ~~about~~ 55 years.

I consider T. Rudroya Moodly

to be completely and permanently incapacitated for further service of any kind or in the Department to which he belongs in consequence of Dilatation of heart № 264.

His incapacity does not appear to me to have been caused by irregular or intemperate habits.

Station, Madras
Date 26th July 1899

G. J. Lee Name.
Lt. Col. I.M.S. Rank.
Surgeon 1st District Designation.

Note.—[If the incapacity is obviously the result of intemperance, substitute for the words in italics "In my opinion his incapacity is the result of irregular or intemperate habits."]

Surgeon-General with the Government of Madras.

STATEMENT OF CASE.

Current No. 221/2 of 1 9

1. Rank. Clerk
2. Name. J. Budroya Moodly
3. Department or Office. Accountant General's office
4. Marks of identification. A mole below the chin
5. Age. 49
6. Service. 12 6/12 years
7. Sick leave granted during the service. 10 Months
8. Disease or cause of Disability. Dilatation of heart No. 264.
9. Abstract statement of case showing how the disease or disability was contracted, the results of the treatment adopted. In case the disease or disability is believed to have been caused by irregular or intemperate habits, the reasons for such belief should be stated.

This man has had ten months sick leave, but after this prolonged rest he broke down again shortly after returning to his work. He says that when he writes a few lines his finger joints become painful and he turns faint and giddy. By appearance he seems 55 years of age although by his register he is only 49.
His heart's action is feeble yet irritable and the right chambers are dilated. His urine is full of urates and is turbid from a chronic urethro balanitis which may have some causal relation to the arthritic manifestation & there is also a history of glycosuria though no sugar was found on this occasion. His teeth are in an advanced state of decay & his gums congested & relaxed.

There are thus sufficient evidences of impending digestive and circulatory break-down to justify the conclusion that he is unfit for any further useful service & should therefore be invalided.
