Thereby certify that
I have carefully examined
"Venganiarayan" Age 55, Service
35 years Tashildar of Chougat
who has been under my
treatment. He has been
subject to Chronic Rheumatism
and to Dyspepsia. He has
of late become Hemiplegic
and is rapidly losing the
use of his right hand; which
latter affection I consider wholly
incapacitates him for further
service.

With reference to the Paper

noted in the margin, relative to the ap-
plication of Vengana Ryer, Tahsildar of
Chowghat for Pension of his rank, and
the Government orders thereon, I venture
again to bring his case under the favorable
consideration of Government, with refer-
ence to the renewed Certificate of Dr Cleveland
declaring him incapacitated for further
service.

Since

DP 1857
Chow 9.35

Since Dr Cleveland's first Certificate dated 10th July 1856 was passed the old servant has been under treatment & surveillance 86 months have only served to develope further his increasing, and I now think incurable, infirmities. It is scarcely necessary to add that the old man has not done, nor has he been able to do, an hour's public duty since his first application. To be reduced he would feel a great insult after 35 years faithful service, during 22 years of which he has been at the Head of his office, while as far as the efficiency of the Public Service is concerned to make him a Talook Sheristdar or Head Gomastah would be tantamount to abolishing the office for the period of his incumbency. Have the honor to be,

Sir,
Your most obed^t. servant,

Robinson
