PUBLIC WORKS DEPARTMENT,
Public.

No. 1897.

Extract from the Minutes of Consultation under date the 8th October 1857.

Read the following letter from the Chief Engineer.

Reports separately on the circumstances of the case of each of the 5 Goomastahs stated by Lieutenant Moberly to be unfit for public service, and submits for information and orders the letters received from Lieutenant Moberly and others on the subject.

(Here enter 21th September 1857, No. 3973.)

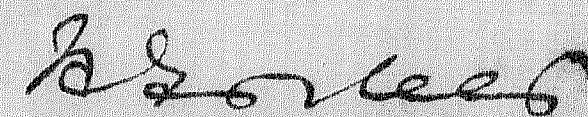

In his communication above recorded, the Chief Engineer reports on the circumstances of the case of each of the five Marahmut Goomastahs stated by the District Engineer of Chingleput to be unfit to be employed as Sub Overseers in the Department Public Works, but in regard to whom the Government declined* to give orders without further information.

* Extract Minutes Consultation 30th March 1857.

2. Colonel Faber states that three* of them are unfit for further service from old age, and recommends them for gratuities, not being entitled to Pensions from the circumstance of their respective salaries not exceeding 10 Rupees. The cases of Venctaram Puntooloo, and Ram Row, have been duly certified by the Medical Officer, while he declares Soobba Row capable of further service. This man is stated by the District Engineer to be 53 years old with 33 years service; but according to the account given by the Collector, in whose Department he has served for a considerable period, and whose information on the subject must therefore be more correct, his age is 63 years, and his service extends to 40 years. According to the Zillah Surgeon's opinion, he may be capable of further service in a stationary Office or Cutcherry, but considering his advanced age, the Government cannot but think he is unfit for the Public Works Department which requires constant travelling. Under these circumstances, the Right Hon'ble the Governor in Council authorizes the dismissal from the service of all these three men, and orders for the payment of gratuities to them will be issued from the Public (separate) Department.

3. As regards the other two men, Runga Row and Sashagherry Row, who are stated to be unfit for public service for want of diligence and zeal, Colonel Faber thinks they should not be summarily dismissed without further trial, and as this is impracticable at the present moment, from the considerable reduction made in the subordinate grades, to retain them in the Department, he suggests that they be removed from the service, the District Engineer being instructed to take their claims into consideration as vacancies occur. The Government approve this course, and instructions will accordingly be issued to Lieutenant Moberly from the Central Office.
