This is to certify that, I have carefully examined the late Sir James Froude and am of opinion that, from impairment of vision (the result of cataractous affection of the eyes) and bodily infirmity he is permanently disqualified for further active service and that there is no likelihood of his bodily infirmity deriving any benefit either from medical treatment or relaxation from duty for a period of twelve months.

I am further of opinion that his present state of infirmity is from natural causes contracted during the course of service and not the result of intemperance or any indiscretion of his own.
