I hereby Certify that I have
Carefully examined Manuscript
Manuscript of Munkki. He is found
to be suffering from Chronic
Glaucoma of the eye which
is more advanced in the left
and which had the appearance
of having been progressing
for the last 3 or 4 years
causing general impaired
vision. He is also laboring
with pulmonary (pleuritic) of
the large middle lobe of
the left and under arising
from Chronic disease of
the kidneys. His health is
much broken down. From
his general infirm state
and advanced age I am
of opinion he is not equal
to the active duties of his office.

There is no reason to think
that his present incapacity for
his duties had arisen from
intemperance or had been caused
by irregular living. —
