PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from Lieutenant-Colonel W. H. HORSLEY, Chief Engineer, to J. D. BOURDILLON, Esq., Secretary to Government, dated Chepauk, 26th July 1860, No. 3,051 :—

1. In their Orders of the 24th January 1837, No. 300, (Military Department), the Government authorized the re-entertainment at a cost of 49 Rupees per mensem of two Maistries and two Peons on the establishment of the then Chief Engineer at the Presidency, for the purpose of examining the Estimates and repairing and making the roads in the Public and Assessment Department, viz. :—

	RS.
2 Road Maistries, @ 17½ ...	35
2 Peons, @ 7 ...	14
Total...	49

2. From the date above-mentioned up to the present time this establishment has been continued, and since the formation of the Public Works Department in January 1857, the two Maistries have been employed under the orders of the late Garrison Engineer in the supervision of roads and buildings generally in Fort Saint George, while the two Peons have been employed in the Office of the Commandant of Engineers, Colonel Faber having ordered their temporary transfer to that Department, considering that they would be of more service there than two of the Garrison Lascars, who were detailed for duty under the orders of the Commandant, and which Lascars have, by this arrangement, performed duty up to this time in the Central Office instead of the two Peons.

3. The pay of the establishment has been drawn from October 1855, on a separate abstract prepared in the Central Office and signed by the Chief Engineer, but it was not until the death of one of the Peons, (which occurred early this month) that my attention was particularly directed to the subject, and as the special object for which it was originally sanctioned no longer exists, I am of opinion that the establishment should be discontinued, and accordingly recommend its

immediate abolition and the grant of gratuities to the Maistry and Peon noted in the margin,* as was done in the case of those on the Commandant of Engineers' establishment lately discharged.

4. The Maistry was entertained, I observe, on the 22nd November 1855, and will not, therefore, be eligible under the rules for a gratuity until the 21st November next; I trust, however, that under the circumstance of his removal from the Public Service, a gratuity of three months' salary, Rupees 52½, will be granted to him.

5. As respects the length of service of the Peon, I observe that his name is entered in the first Acquittance Roll after the sanction of the establishment in January 1837, and as his services have, I am informed, been continuous, he is eligible under the Orders of Government conveyed in Proceedings of 2nd June 1860, No. 1,153, to a gratuity of six months' salary, Rupees 42, which I recommend may be sanctioned.

6. The other Maistry, by name Subroy, having only served since 1st June 1858, is not entitled to a gratuity.

7. Finally, I would suggest that should the two Maistries be disposed to re-enter the Public Service, the District Engineer, Presidency, may be authorized to entertain them on his establishment on the occurrence of vacancies among the 3rd class Sub-Overseers, without subjecting them to the prescribed examination.
